## Space42 PLC

### Pro forma financial information

31 December 2025 (Unaudited)

#### BASIS OF PREPARATION

On 1 October 2024, Al Yah Satellite Communications Company PJSC ("Yahsat") merged into Bayanat AI PLC ("Bayanat"), the surviving entity rebranded as Space42 PLC ("Space42"), through a share swap arrangement. The Pro forma consolidated financial information ("Pro forma financial information") illustrates the effects on the statement of financial position and financial performance of this transaction. Further details of the merger are provided in note 1 and note 37 to the consolidated financial statements of Space42 for the year ended 31 December 2025.

The Pro forma financial information consists of the unaudited consolidated statement of financial position of Space42 as at 31 December 2025 and its unaudited consolidated statement of profit or loss and comprehensive income for the year ended 31 December 2025. These statements are prepared as if the transaction had taken place as at 1 January 2023 at the same purchase consideration as at the date of the merger. Further, these statements do not include the financial effects of the Purchase Price Allocation (PPA) exercise and consider the difference between the fair value of the consideration and the book value of net assets acquired as provisional goodwill. Please refer to Note 36 of the consolidated financial statements for the actual results of the PPA and the goodwill that was recognised as part of the merger.

Number of shares issued by Bayanat to Yahsat shareholders (A)	2,190,476,191
Market value of per share of Bayanat as at the date of the transaction (AED) (B)	2.38
Total purchase consideration (AED'000) (AxB)	5,213,333
Total purchase consideration (USD'000) (C)	1,419,560
Less: net assets of Yahsat as at 1 January 2023 (USD'000) (D)	(851,135)
Provisional goodwill as at 1 January 2023 (USD'000) (C-D)	<u><b>568,425</b></u>

The purpose of the Pro forma financial information is to show the material effects that the transaction would have had on the historical consolidated statement of financial position and historical consolidated statement of profit or loss and comprehensive income of Space42 and its subsidiaries (together referred to as the "Group") as if the merger had happened on 1 January 2023. The presentation of the Pro forma financial information of the Group is based on certain pro forma assumptions and has been prepared for illustrative purposes only. Because of its nature, it addresses a hypothetical situation and, therefore, does not represent and may not provide a true picture of the financial position of the Group as at 31 December 2025 and 31 December 2024 and its financial performance for the year ended 31 December 2025 and 31 December 2024.

The Pro forma financial information does not take into consideration the effects of expected synergies or costs incurred to achieve these synergies as a result of the transaction. The Pro forma financial information gives no indication of the results and future financial situation of the Group.

The Pro forma financial information has been compiled based on the accounting policies adopted by the Group for the preparation of 31 December 2025 audited consolidated financial statements and in a manner consistent with International Financial Reporting Standards ("IFRS").

The Pro forma financial information will be discontinued from 1 January 2026, as the consolidated financial reports for 2026 and the comparative information for 2025 included in those reports will include full financial effects of the merger, including the effects of PPA and are comparable on a like-for-like basis.

## Space42 PLC

### Board of Directors' Report

31 December 2025

The Directors have pleasure in presenting their report, together with the audited consolidated financial statements of Space42 PLC (the "Company") and its subsidiaries (collectively referred to as the "Group" or "Space42") for the year ended 31 December 2025.

#### Principal activities

Space42 is a UAE-based AI-powered SpaceTech group that seamlessly integrates satellite communications, geospatial insights, and artificial intelligence capabilities for customers globally. Space42's business units, Space Services (SPA) and Smart Solutions (SOL), offer a diversified range of use cases.

1) Space Services (SPA): The Space Services business provides robust, secure satellite communication solutions for government and mission-critical applications; reliable mobility and communication solutions; and high-speed data connectivity solutions.

2) Smart Solutions (SOL): The Smart Solutions business provides earth observation, geospatial solutions and industry-specific solutions using Space42's AI-driven multi-intelligence platform, GIQ, which integrates data from space and ground assets to assist with decision-making, enhance situational awareness, and improve operational efficiency.

#### Results for the year

For the year ended 31 December 2025, the Group reported revenue of \$576,667 thousand (2024: \$331,209 thousand) and loss for the year attributable to the owners of Space42 Plc of \$83,408 thousand (2024: profit of \$62,311 thousand).

#### Transactions with related parties

Related party transactions are carried out as part of our normal course of business and in compliance with applicable laws and regulations. Related party transactions are disclosed in note 20 of the consolidated financial statements.

#### Directors

H.E. Mansoor Al Mansoori	Chairman
Dr. Bakheet Al Katheeri	Vice Chairman
H.E. Tareq Abdul Raheem Al Hosani	Member
H.E. Maryam Eid Khamis AlMheiri	Member
Karim Michel Sabbagh	Managing Director
Ismail Ali Abdulla	Member
Kiril Evtimov	Member

So far as the Directors are aware, there is no relevant audit information of which the Group's auditor is unaware and they have taken all the steps that they ought to have taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Group's auditor are aware of that information.

#### Independent Auditors

Deloitte & Touche (M.E.) LLP, were appointed as the external auditors ("auditors") for the financial year 2025, by the shareholders in the General Assembly on 9 April 2025.

## **INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF SPACE42 PLC**

### **REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS**

#### **Opinion**

We have audited the consolidated financial statements of Space42 PLC (the “Company”), and its subsidiaries (together “the Group”), which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss, consolidated statement of other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2025, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB).

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the applicable requirements of Abu Dhabi Accountability Authority (ADAA) Chairman Resolution No. 88 of 2021 Regarding Financial Statements Audit Standards for the Subject Entities. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants’ International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) as applicable to audit of consolidated financial statements of public interest entities together with the other ethical requirements that are relevant to our audit of the consolidated financial statements of public interest entities in the Abu Dhabi Global Market (ADGM), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

**INDEPENDENT AUDITOR’S REPORT  
TO THE SHAREHOLDERS OF SPACE42 PLC (continued)**

**Key Audit Matters (continued)**

Key audit matter	How our audit addressed the key audit matter
<p><b>Revenue recognition</b></p> <p>The Group earned revenue of USD 577 million during the year ended 31 December 2025 (2024: USD 331 million).</p> <p>Revenue from contracts with customers is recognized when control over goods and services is transferred to a customer. The Group’s contracts with customers include various performance obligations. Revenue from certain contracts is recognized over the period that the related services are rendered whilst revenue from other contracts is recognized at a point in time.</p> <p>The determination of revenue to be recognized requires management to apply significant judgments and make significant estimates. These include:</p> <ul style="list-style-type: none"> <li>• in relation to contracts which were only partially fulfilled at the reporting date, determining the percentage of performance obligations completed at this date;</li> <li>• in relation to contracts with multiple performance obligations, identifying distinct performance obligations from the contract and allocating standalone transaction prices to each performance obligation;</li> <li>• determining if the contract contains a significant financing component in the determination of the transaction price; and</li> <li>• identification of the lease and non-lease components in contracts and classification of leases.</li> </ul> <p>The nature of these judgements results in them being susceptible to management override and increases the risk of revenue being recognised in an incorrect period.</p> <p>Further, the Group relies on information technology (“IT”) systems used in initiating, processing and recording a large volume of transactions in the Group’s mobility solutions revenue stream.</p> <p>We considered revenue recognition to be a key audit matter due to the following factors:</p> <ul style="list-style-type: none"> <li>• the quantitative significance of the amount to the consolidated financial statements;</li> <li>• the level of judgements applied and estimates made by management;</li> <li>• the presumption contained within ISAs that revenue is materially misstated due to fraud; and</li> <li>• the level of audit effort required.</li> </ul> <p>Refer to note 5 for the accounting policy; critical accounting judgements and key sources of estimation uncertainty, and details of the amounts and types of revenue recognized during the year.</p>	<p>We performed the following procedures, inter alia, in relation to revenue recognition:</p> <ul style="list-style-type: none"> <li>• We obtained an understanding of the revenue business process flow and performed walkthroughs to understand the key processes and identify key controls;</li> <li>• We assessed the abovementioned key controls to determine if they had been designed and implemented appropriately and tested these controls to determine if they were operating effectively throughout the year;</li> <li>• We involved our IT specialists to test the general IT environment and key controls in relevant IT systems and supporting tools, including interface controls between different IT systems.</li> <li>• We assessed whether the revenue recognition criteria adopted by the Group is appropriate and is in accordance with the Group accounting policies and the requirements of IFRS Accounting Standards;</li> <li>• We performed substantive testing of selected samples of revenue transactions recorded during the year by reviewing relevant agreements, invoices, customer acceptance certificates, and determined that transactions were recorded in accordance with the substance of the relevant agreements;</li> <li>• For material contracts identified, we have reviewed the contract terms and verified assumptions made in determining the amount of revenue to be recognised, including consideration of discounts, performance penalties and other cost implications of the contract;</li> <li>• For material contracts with multiple performance obligations identified, we have reviewed management’s assessment of distinct performance obligations in the contract and the allocation of the total contract price to each performance obligation.</li> <li>• For long-term contracts with government entities, we assessed management’s assumptions used to determine that the contract contains a significant financing component in the determination of the transaction price.</li> <li>• We evaluated lease and non-lease elements of selected contracts included in the infrastructure revenue to determine if the classification is in accordance with IFRS Accounting Standards.</li> <li>• We performed analytical procedures by comparing the gross margins for the different types of revenue streams to the prior year. If we identified an unexpected margin, we carried out more focused testing on these revenue streams; and</li> <li>• We assessed the disclosure in the consolidated financial statements relating to this matter against the requirements of IFRS Accounting Standards.</li> </ul>

**INDEPENDENT AUDITOR’S REPORT  
TO THE SHAREHOLDERS OF SPACE42 PLC (continued)**

**Key Audit Matters (continued)**

Key audit matter	How our audit addressed the key audit matter
<p><b>Allowance for expected credit losses on contract assets arising from smart solutions</b></p> <p>At 31 December 2025, gross contract assets from smart solutions were USD 284 million against which an allowance for expected credit losses (“ECL”) of USD 116 million was recorded. These assets represent 12% of the total current assets presented in the consolidated financial statements.</p> <p>Gross contract assets from smart solutions include balances of USD 198 million, which have been outstanding for more than one year. Further, contract assets include balances of USD 38 million which are outstanding for more than 3 years.</p> <p>The Group assesses at each reporting date whether the contract assets are impaired. Management has applied the simplified approach for the measurement of the allowance for ECL on contract assets which are not impaired. The ECL model involves the use of various assumptions, macro-economic factors and study of historical trends relating to the Group’s billing and collections experience.</p> <p>We have considered the recoverability and impairment of contract assets from smart solutions as a key audit matter due to the identification of delays in the billing of contract assets which results in the application of significant auditor judgement regarding the accounting estimates made by management in determining the ECL allowance. In addition, contract assets are a quantitatively significant amount in the consolidated financial statements.</p> <p>Refer to notes 2 and 3 for the accounting policy and critical estimates made and judgements applied for determining the allowance for ECL respectively.</p>	<p>We performed the following procedures, inter alia, in relation to the allowance for ECL:</p> <ul style="list-style-type: none"> <li>• We obtained an understanding of the process and identified the relevant controls over the measurement and determination of the allowance for ECL;</li> <li>• We assessed the design of these controls and determined if they had been implemented appropriately;</li> <li>• We compared the ECL model developed by management against the requirements of IFRS Accounting Standards and reviewed the methodology against accepted best practice;</li> <li>• We tested the arithmetical accuracy of the model;</li> <li>• For material contract assets balances, including those outstanding for more than one year, we held meetings with project managers and management and evaluated if there is a significant increase in credit risk since initial recognition based on the contracts’ status, latest communication with customers and expected billing.</li> <li>• We tested key assumptions, such as those used to calculate the likelihood of default and the subsequent loss on default, by comparing to historical data. We also considered the incorporation of forward-looking factors to reflect the impact of future events on expected credit losses;</li> <li>• We agreed the results of the output of the ECL model developed by management to the amounts reported in the consolidated financial statements; and</li> <li>• We assessed the disclosure in the consolidated financial statements relating to this matter against the requirements of IFRS Accounting Standards.</li> </ul>

## INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF SPACE42 PLC (continued)

### Other Information

Management is responsible for the other information. The other information comprises the Board of Directors' report which we obtained prior to the date of this auditor's report, and the Group's Annual Report, which is expected to be made available to us after that date. The other information does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Group's Annual Report, if we conclude that there is a material misstatement therein, we will be required to communicate the matter to those charged with governance and consider whether a reportable irregularity exists in terms of the auditing standards, which must be reported.

### Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards as issued by the IASB and the applicable provisions of the Articles of Association of the Company and ADGM Companies Regulations 2020 (as amended). Companies Regulations (International Accounting Standards) Rules 2015 and ADGM Financial Services Regulatory Authority Market Rules, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the applicable requirements of ADAA Chairman's Resolution No. 88 of 2021 Regarding Financial Statements Audit Standards for the Subject Entities will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or taken together, they could reasonably be expected to influence the economic decisions of users taken based on these consolidated financial statements.

**INDEPENDENT AUDITOR'S REPORT  
TO THE SHAREHOLDERS OF SPACE42 PLC (continued)**

**Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)**

As part of an audit in accordance with ISAs and the applicable requirements of ADAA Chairman's Resolution No. 88 of 2021 Regarding Financial Statements Audit Standards for the Subject Entities, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than the one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for expressing an opinion on the effectiveness of the internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the Group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the Group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF SPACE42 PLC (continued)

### REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

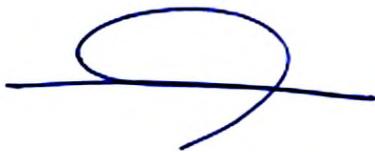

As required by the provisions of the ADGM Companies Regulations 2020 (as amended), Companies Regulations (International Accounting Standards) Rules 2015 and ADGM Financial Services Regulatory Authority Market Rules ("Rules and Regulations"), we report that:

- The consolidated financial statements of the Group have been prepared, in all material respects, in accordance with the requirements of the said Rules and Regulations;
- The information given in the Board of Directors' report is consistent with the Group's consolidated financial statements for the year ended 31 December 2025;
- Adequate accounting records have been kept by the Group; and
- The Group's consolidated financial statements are in agreement with the accounting records of the Group.

Further, as required by the ADAA Chairman Resolution No. 88 of 2021 Regarding Financial Statements Audit Standards for the Subject Entities, we report, in connection with our audit of the consolidated financial statements for the year ended 31 December 2025, that nothing has come to our attention that causes us to believe that the Group has not complied, in all material respects, with any of the provisions of the following laws, regulations and circulars as applicable, which would materially affect its activities or the consolidated financial statements as at 31 December 2025:

- (i) its Articles of Association; and
- (ii) relevant provisions of the applicable laws, resolutions and circulars that have an impact on the Subject Entity's consolidated financial statements.

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 1 Corporate information

Space42 PLC (the "Company") is registered in Abu Dhabi Global Market (ADGM) under license number 000008474 as a Public Company Limited by Shares. The Company was incorporated on 28 September 2022 (the "inception date"). The registered address of the Company is Al Sarab Tower, ADGM Square, Al Maryah Island, Abu Dhabi, United Arab Emirates. The Company's ordinary shares are listed on the Abu Dhabi Stock Exchange (ADX).

The Group's parent company and controlling party is Group 42 Holding Ltd (the "Parent Company"), a private company registered in Abu Dhabi Global Market and the Ultimate Parent Entity is Fount Trust.

On 1 October 2024, the Company and Al Yah Satellite Communications Company PJSC (Yahsat), a global satellite operator, merged to create Space42, a UAE-based AI-powered SpaceTech company with a global reach, integrating satellite communications, geospatial analytics, and artificial intelligence capabilities. On this date, Yahsat was dissolved and its shares delisted from Abu Dhabi Securities Exchange (ADX). Its assets and liabilities were transferred to the Company in exchange for newly issued shares. Following the merger, the legal name of the Company was changed from Bayanat AI PLC to Space42 PLC (note 30 and 36).

These consolidated financial statements include the financial performance and position of the Company, its subsidiaries (collectively referred to as the "Group") and the Group's interest in its equity-accounted investees.

The Group is organized into two business units and its principal activities are:

- 1) Space Services (SPA): The Space Services business provides robust, secure satellite communication solutions for government and mission-critical applications; reliable mobility and communication solutions; and high-speed data connectivity solutions.
- 2) Smart Solutions (SOL): The Smart Solutions business provides earth observation, geospatial solutions and industry-specific solutions using Space42's AI-driven multi-intelligence platform, GIQ, which integrates data from space and ground assets to assist with decision-making, enhance situational awareness, and improve operational efficiency.

Details of the Company's subsidiaries and its equity-accounted investees are set out in Notes 16 and 17.

#### 2 Material accounting policy information

##### 2.1 Basis of preparation

###### Statement of compliance

These consolidated financial statements have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB) and comply where appropriate, with the Articles of Association and applicable requirements of Abu Dhabi Global Market ("ADGM") Companies Regulations 2020 (as amended), Companies Regulations (International Accounting Standards) Rules 2015 and ADGM Financial Services Regulatory Authority Market Rules.

###### Basis of measurement

These consolidated financial statements have been prepared on the historical cost basis, except for derivative financial instruments, and other financial assets, which are measured at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

###### Functional and presentation currency

These consolidated financial statements are presented in United States Dollars ("USD" or "\$"), the functional currency of the Company and the presentation currency of the Group. Subsidiaries and its equity-accounted investees determine their own functional currency and items included in the financial statements of these companies are measured using that functional currency. All financial information presented in USD has been rounded to the nearest thousand ("\$ 000"), unless stated otherwise.

##### 2.2 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 31 December 2025. The basis of consolidation is referred in the following notes:

Basis of consolidation	Notes
(i) Subsidiaries	16
(ii) Investments in associates	17
(iii) Transactions eliminated on consolidation	16,17
(iv) Business combinations and changes in ownership interests	36

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

## 2 Material accounting policy information (continued)

### 2.3 Summary of material accounting policy information

The Group has applied these accounting policies consistently to all periods presented in these consolidated financial statements.

#### A) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

##### (i) Non-derivative financial assets

The Group's non-derivative financial assets comprise receivables and cash and short-term deposits.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income (FVOCI), it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. However, the Group may make an irrevocable election at initial recognition to classify its equity instruments which are not held for trading as measured at FVOCI. All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at fair value through profit or loss (FVTPL).

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at FVOCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired. The Group's financial assets at amortised cost includes trade receivables, amounts due from related parties and other receivables.

The Group does not have financial assets carried at FVOCI.

The Group derecognises a financial asset only when the contractual rights to the cash flows of the asset expire, or it transfers the rights to receive the contractual cash flows of the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and associated liability for amounts it may have to pay.

If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Cash and cash equivalents comprise cash balances and short-term deposits with original maturities of three months or less.

##### (ii) Non-derivative financial liabilities

The Group's non-derivative financial liabilities comprise trade payables, amounts due to related parties, borrowings, other payables and accruals.

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL or at amortised cost (loans and borrowings or payables), or as derivatives designated as hedging instruments, as appropriate.

Non-derivative financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method.

A financial liability is derecognised when, and only when, the obligation under the liability is discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

## 2 Material accounting policy information (continued)

### 2.3 Summary of material accounting policy information (continued)

#### A) Financial instruments (continued)

(iii) Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

(iv) Derivative financial instruments including hedge accounting: Refer to Note 27.

#### B) Revenue from contract with customers

Refer Note 5.

#### C) Leases - the Group as a lessor

Refer Note 5.

#### D) Finance costs and Finance income

Refer Note 11.

#### E) Other income

Refer Note 9.

#### F) Property, plant and equipment

Refer Note 13.

#### G) Leases - the Group as a Lessee

Refer Note 14.

#### H) Intangible assets

Refer Note 15.

#### I) Borrowing costs

Refer Note 11.

#### J) Impairment

##### Financial assets

The Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments not carried at FVTPL. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

To assess whether there is a significant increase in credit risk the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information including actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the counter party's ability to meet its obligations.

##### Financial assets carried at amortised cost

The Group recognizes lifetime expected credit loss (ECL) for trade receivables and contract assets using the simplified approach. The Group has elected to apply the simplified approach for trade receivables and contract assets that contain significant financing component. The expected credit losses on these financial assets are estimated using loss rates applied against each customer segment for each revenue type to measure expected credit losses. The Group determines the loss rates based on historical credit loss experience, analysis of the debtor's current financial position adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of current and forecast direction of conditions at the reporting date, including, where appropriate, time value of money.

If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited in the consolidated statement of profit or loss. The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

## 2 Material accounting policy information (continued)

### 2.3 Summary of material accounting policy information (continued)

#### J) Impairment (continued)

##### Non-financial assets and equity accounted investments

The carrying amounts of the Group's non-financial assets and equity accounted investments are reviewed at each reporting date to determine whether there is any indication of impairment. If such an indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired.

In order to estimate recoverable amount, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit, or CGU"). The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the assets for which the estimates of future cash flows have not been adjusted.

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss and in case of impairment loss on equity accounted investments, these are included within share of results recognised in profit or loss.

Impairment losses recognised on non-financial assets excluding goodwill and equity accounted investments in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised in prior years.

#### K) Foreign currency

The Group's share of results and share of movement in other comprehensive income of equity accounted investments are translated into USD at average exchange rates for the year. At the end of each reporting period, translation differences relating to equity accounted investments and monetary assets and liabilities that form part of a net investment in a foreign operation are calculated at the rates prevailing at that date and recognised in the consolidated statement of other comprehensive income. When a foreign operation is disposed of in its entirety or partially such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. If the Group disposes of part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount is reattributed to NCI. When the Group disposes of only part of an associate or joint venture while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

#### L) Employee terminal benefits

Refer Note 7.

#### M) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

#### N) Income tax

Refer Note 12.

#### O) Government grants

Refer Note 28.

#### P) Current vs non-current classification

The Group presents assets and liabilities in the consolidated statement of financial position based on current/non-current classification.

An asset is current when it is:

- expected to be realised or intended to be sold or consumed in the normal operating cycle;
- held primarily for the purpose of trading;
- expected to be realised within twelve months after the reporting period; or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when it is:

- expected to be settled in the normal operating cycle;
- held primarily for the purpose of trading;
- due to be settled within twelve months after the reporting period; or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

## 2 Material accounting policy information (continued)

### 2.3 Summary of material accounting policy information (continued)

#### Q) Fair value measurement

A number of the Group's accounting policies and disclosures require the determination of fair values, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and / or disclosure purposes as explained below. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

The levels of fair value hierarchy are defined as follows:

Level 1: Measurement using quoted prices (unadjusted) from the active market.

Level 2: Measurement using valuation methods with parameters derived directly or indirectly from observable market data.

Level 3: Measurement using valuation methods with parameters not based exclusively on observable market data.

### 2.4 Changes in material accounting policies and disclosures

#### New and amended standards and interpretations

The Group applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2025. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

#### Amendments to IAS 21 - Lack of exchangeability

The amendments specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The amendments did not have a material impact on the Group's consolidated financial statements and its notes.

### 2.5 Standards issued but not yet effective and not early adopted

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's consolidated financial statements are disclosed below. The Group intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

<b>New and amended standards issued but not effective and not yet adopted by the Group</b>	<b>Effective date</b>
<i>IFRS 18 Presentation and Disclosure in Financial Statements</i>	<i>1 January 2027</i>
<i>IFRS 19 Subsidiaries without Public Accountability: Disclosures</i>	<i>1 January 2027</i>
<i>Amendments to IAS 21: Translation to a Hyperinflationary Presentation Currency</i>	<i>1 January 2027</i>
<i>Amendments to IFRS 9 and IFRS 7: Contracts Referencing Nature-dependent Electricity</i>	<i>1 January 2026</i>
<i>Annual Improvements to IFRS Accounting Standards — Volume 11</i>	<i>1 January 2026</i>
<i>Amendment to IFRS 9 and IFRS 7: Classification and Measurement of Financial Instruments</i>	<i>1 January 2026</i>
<i>Amendments to IFRS 10 'Consolidated Financial Statements' and IAS 28 'Investments in Associates and Joint Ventures': Sale or contribution of assets between investor and its associate or joint venture</i>	<i>Deferred indefinitely</i>
<i>IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information and IFRS S2 Climate-related Disclosures</i>	<i>1 January 2024, subject to adoption by the local jurisdiction</i>

The Group is currently in the process of assessing the impacts of IFRS 18 on the consolidated financial statements.

There are no other applicable new standards and amendments to published standards or IFRIC interpretations that have been issued that would be expected to have a material impact on the consolidated financial statements of the Group. Except IFRS 18, the above stated new standards and amendments are not expected to have any significant impact on consolidated financial statements of the Group.

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

### 3 Significant accounting judgements, estimates and assumptions

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

#### Significant accounting judgements

##### Judgements relating to revenue from contract with customers

Refer Note 5.

##### Classification of investments

The Group applies significant judgement with respect to the classification of investments, control (including de-facto control), joint control and significant influence exercised on those investments made by the Group. For assessing control, the Group considers power over the investee, exposure, or rights, to variable returns from its involvement with the investee and the ability to use its power over the investee to affect its returns. In case, where the Group has less than majority of the voting or similar rights in an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including the contractual arrangement with the other vote holders of the investee and de-facto control on listed securities. Management's assessment considers the Group's ability to exercise control in the event of a deadlock situation with other vote holders and in situations where the Group holds convertible instruments, the Group considers potential voting rights.

Based on management's assessment, the classification of the Group's investments do not require any change as of 31 December 2025.

#### Significant accounting estimates

##### Impairment of non-financial assets excluding goodwill

At the end of each reporting period, management applies the guidance in IAS 36 Impairment of Assets to identify whether there is any objective evidence of impairment of its non-financial assets excluding goodwill. In such instances, the assets are subject to an impairment test by comparing their carrying amounts at the balance sheet date to their recoverable amounts. The recoverable amount for an individual asset is estimated and is the higher of its fair value less costs of disposal and its value in use. If the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, the recoverable amount of the cash-generating unit (CGU) to which the asset belongs is determined. An estimate of fair value less cost of disposal or the value in use of the CGU (or asset) is made, using estimated future cash flows discounted using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (asset). The assumptions and judgements made in assessing the recoverable value include expectations of contract renewals, price increases on existing contracts, inflation rates and growth rates.

During the year, the Group undertook a comprehensive reassessment of its cash-generating units (CGUs) in accordance with IAS 36 Impairment of Assets. This reassessment was prompted by changes in the Group's operational and management structure following the merger in the fourth quarter of 2024 (note 36), and the launch and commencement of services of the Group's T4-NGS satellite in 2025.

Following the reassessment, the Group has identified the following CGUs, under both segments:

- Space Services Infrastructure CGU: The previously identified Infrastructure and Managed solutions CGUs have been aggregated into a single CGU, Infrastructure, which provides robust, secure satellite communication solutions for government and mission-critical applications including end-to-end managed solutions.
- Space Services Mobility solutions CGU: The CGU provides reliable communication solutions including industrial and consumer satellite phones, broadband terminals, and IoT solutions for government and commercial clients based on L-band spectrum.
- Space Services Data solutions CGU: The CGU primarily represents the Group's Yahclick business providing broadband satellite solutions in Africa, Middle East and Asia.
- Space Services Equity-accounted investees CGUs: AI Maisan CGU and HPE CGU each operate independently and therefore represent separate CGUs.
- Smart Solutions CGU: This CGU, also an operating segment, provides earth observation, geospatial solutions and industry-specific solutions using Space42's AI-driven multi-intelligence platform, GIQ, which integrates data from space and ground assets to assist with decision-making, enhance situational awareness, and improve operational efficiency.

The reassessment did not result in any impairment losses in the current year. Comparative figures for the prior year have not been restated, as the changes reflect prospective application in line with IAS 8.

The Group has identified indicators of impairment in its Data solutions, Smart Solutions (refer below) and HPE CGUs (refer Impairment of equity-accounted investments).

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

### 3 Significant accounting judgements, estimates and assumptions (continued)

#### Significant accounting estimates (continued)

##### Impairment of non-financial assets excluding goodwill (continued)

###### Data solutions CGU

The recoverable amount of the CGU was based on fair value less costs of disposal, estimated using discounted cash flows using inputs to the valuation technique that fall under Level 3 of the fair value hierarchy. The recoverable amount as at 31 December 2025 has been determined using cash flow projections from the budget and business plan approved by the Board of Directors for the years 2026-2030. The cash flow projections extrapolated into perpetuity at a 4.1% growth rate and discounted using a discount rate of 12.2%. The recoverable amount of the CGU exceeded the carrying value by \$16.8 million as of 31 December 2025, indicating the CGU is not impaired. An increase of 0.6% in the discount rate would result in a lower recoverable amount by \$5.3 million.

###### Smart solutions CGU

The recoverable amount of the CGU was based on fair value less costs of disposal, estimated using discounted cash flows using inputs to the valuation technique that fall under Level 3 of the fair value hierarchy. The recoverable amount as at 31 December 2025 has been determined using cash flow projections from the budget and business plan approved by the Board of Directors for the years 2026-2030. The cash flow projections extrapolated into perpetuity at a 3% growth rate and discounted using a discount rate of 11.7%. The recoverable amount of the CGU exceeded the carrying value by \$378 million as of 31 December 2025, indicating the CGU is not impaired. An increase of 1% in the discount rate would result in a lower recoverable amount by \$59 million.

##### Impairment of equity-accounted investments

At the end of each reporting period, management applies the guidance in IAS 28 Investments in Associates and Joint Ventures to identify whether there is any objective evidence of impairment of its equity-accounted investments. In such instances, the investments are subject to impairment tests by comparing the carrying amount to the recoverable amount of each investment. Considering the long term nature of these investments, the recoverable amount is determined based on discounted cash flows calculations. Estimated future cash flows are discounted using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. The assumptions and judgements made in assessing the fair value less costs of disposal include expectations of contract renewals, price changes on existing contracts and inflation rates.

During the year, the Group has identified indicators that its HPE CGU may be impaired. The recoverable amount of the CGU was based on fair value less costs of disposal, estimated using discounted cash flows using inputs to the valuation technique that fall under Level 3 of the fair value hierarchy. The recoverable amount as at 31 December 2025 has been determined using cash flow projections from the budget for the year 2026 and business plan for the years 2027-2035. The cash flow projections extrapolated into perpetuity at a 3% growth rate and discounted using a discount rate of 13.3%. The recoverable amount of the CGU exceeded the carrying value by \$3.3 million as of 31 December 2025, indicating the CGU is not impaired. An increase of 0.5% in the discount rate would result in a lower recoverable amount by \$1.3 million.

At the end of the year, management has not identified any indicator that suggests that the Group's investment in AI Maisan is impaired.

##### Impairment of goodwill

For impairment testing, goodwill acquired as a result of the business combination (note 36) is allocated to the Infrastructure CGU. At the end of the year, the Group performed its annual impairment test of the goodwill which did not indicate any impairment loss to be recognised in these consolidated financial statements. The key assumptions used in the estimation of the recoverable amount are disclosed in note 15.

##### Impairment losses on receivables and contract assets

The Group reviews its receivables and contract assets to assess impairment on a regular basis. In determining whether impairment losses should be recorded in the consolidated statement of profit or loss and consolidated statement of comprehensive income, the Group applies the simplified approach permitted by IFRS 9, which requires expected lifetime credit losses (ECL) to be recognised from initial recognition of the receivables. An impairment analysis is performed at each reporting date using loss rates applied against each customer segment and if necessary, at an individual contract level, to measure expected credit losses. The provision rates are based on historical patterns of default for groupings of various customer segments with similar loss patterns (i.e., by geographical region, customer type, age profile and where required, contract specific considerations). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions.

During the year, the Group updated its methodology for measuring the loss allowance for trade receivables and contract assets which was accounted as a change in accounting estimate applied prospectively in accordance with IAS 8 (refer note 21).

As at 31 December 2025, the Group is carrying an allowance for expected credit losses of \$165,592 thousand (2024: \$33,810 thousand) (refer note 21).

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 3 Significant accounting judgements, estimates and assumptions (continued)

##### Useful lives of property, plant and equipment and intangible assets

Management assigns useful lives to property, plant, equipment, and intangible assets based on the intended use of assets and the economic lives of those assets. Subsequent change in circumstances such as technological advances or prospective utilisation of the assets concerned could result in the actual useful lives differing from initial estimates. For satellite systems, management reviews the satellite health reports including estimates of the fuel life of the satellites, in determining if any adjustments are required to the useful life. Management also considers other factors including inputs from the satellite insurance markets on total insurable life and availability of underwriters for insurance of the satellite payloads.

Management has reviewed the useful lives of major items of property, plant and equipment and intangible assets and determined that current year estimates do not differ from previous estimates.

##### Fair value of derivative financial instruments

Refer Note 27.

##### Leases - Estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the subsidiary's functional currency).

The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary's stand-alone credit rating). The Group applied incremental borrowing rates ranging from 4.11% to 6.37% to the lease liabilities.

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 4 Segment information

Information regarding the Group's operating segments is set out below in accordance with IFRS 8 Operating Segments.

##### Material accounting policy information

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM) who is the Managing Director. The CODM makes strategic decisions and is responsible for allocating resources and assessing performance of the operating segments.

##### Information on segments

Consequent to the merger, the Group's operating model was changed organizing the Group into two business units, namely, Space Services or SPA (comprising the businesses acquired from Yahsat as part of the merger) and Smart Solutions or SOL (comprising the business carried out by the Group before the merger). SOL combines all the four segments that were reported separately prior to the merger namely Smart Geospatial Solutions, Smart Mobility Solutions, Smart Operations Solutions and Smart Space Solutions.

Each business unit is headed by a Chief Executive Officer (CEO), who reports to the Managing Director, who is also the Chief Operating Decision Maker (CODM). The CODM assesses the financial performance and financial position of the business units and the Group, in making decisions to allocate resources.

The business units meet the definition of operating segments as per IFRS 8 Operating Segments. The details of the operating segments are as follows:

1) Space Services (SPA): The Space Services business provides robust, secure satellite communication solutions for government and mission-critical applications; reliable mobility and communication solutions; and high-speed data connectivity solutions.

2) Smart Solutions (SOL): The Smart Solutions business provides earth observation, geospatial solutions and industry-specific solutions using Space42's AI-driven multi-intelligence platform, GIQ, which integrates data from space and ground assets to assist with decision-making, enhance situational awareness, and improve operational efficiency.

Segment revenue is measured in a manner consistent with that in the consolidated statement of profit or loss. The performance of the segments are evaluated based on Adjusted EBITDA.

Capital expenditure includes additions during the year to property, plant and equipment, right-of-use assets and intangible assets.

The breakdown of revenue from external customers by nature of business activity is provided in note 5. There were no intersegment revenue in the current year (2024: nil).

The segment information for the year ended 31 December 2025 is as follows.

	Space Services \$ 000	Smart Solutions \$ 000	Total \$ 000
<b>Revenue</b>	<b>452,408</b>	<b>124,259</b>	<b>576,667</b>

<b>Profit for the year</b>	<b>43,176</b>	<b>19,632</b>	<b>62,808</b>
Profit for the year attributable to non-controlling interests	497	-	497
<b>Profit for the year attributable to the Owners of Space42 Plc</b>	<b>42,679</b>	<b>19,632</b>	<b>62,311</b>
Capital expenditure	119,830	41,278	161,108

#### Geographical information

The information on Group's revenue by geography has been compiled based on the principal location of the customers. The Group's principal place of operations is the United Arab Emirates.

Information on significant revenues from a single customer is provided in note 20.

	2025 \$ 000	2024 \$ 000
United Arab Emirates	516,682	309,890
Asia	24,061	14,694
Africa	23,534	3,833
Europe	9,432	1,963
North America	2,653	662
Others	305	167
<b>Revenue</b>	<b>576,667</b>	<b>331,209</b>

The Group's non-current assets other than financial instruments and deferred taxes by geography are presented below. The satellites are allocated to the country where the legal owner of the asset is incorporated.

	2025 \$ 000	2024 \$ 000
United Arab Emirates	2,219,822	2,134,979
South America	16,268	17,693
Europe	5,434	7,933
Africa	1,105	1,614
	<b>2,242,629</b>	<b>2,162,219</b>

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 5 Revenue

##### Material accounting policy information

The Group is in the business of leasing of satellite communication capacity and providing telecommunication services via satellite to customers. The Group also provides services of development, installation and maintenance of various software and artificial intelligence products for specialised business operations which are long term in nature. Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

Space Services segment includes revenue from leasing of satellite capacity and related services including end-to-end integrated satellite communication and managed solutions mainly to government customers. The segment also serves commercial customers by providing narrow-band satellite solutions under the trade name 'Thuraya' and broadband satellite solutions in Africa, Middle East and Asia under the brand name 'Yahclick'. Thuraya provides mobile satellite services (airtime revenue - voice, data and messaging services) and sale of related equipment and accessories. Yahclick revenue includes revenue from provision of satellite broadband services to customers and sale of related equipment and accessories.

Lease revenue is recognised in accordance with IFRS 16 (refer to Leases - the Group as a lessor). Service revenue is recognised over the period in which the services are provided. Revenue is typically recognized in profit or loss based on milestones reached, time elapsed or units delivered. No revenue is recognised if there are significant uncertainties regarding the recovery of the consideration due, the associated costs or the possible return of the goods or the rejection of the services provided.

Revenue from the sale of goods (i.e. equipment and accessories) is recognised at the point in time when control of the asset is transferred to the customer, generally when the goods are delivered and titles have passed. Revenue is recognised net of returns, upfront discounts and sales commissions. Revenue from the sale of prepaid cards is recognized on the actual utilisation of the prepaid card and is deferred (included in contract liabilities) until the customer uses the airtime, or the credit expires.

Smart Solutions segment includes revenue from development of software and artificial intelligence services which is recognised as a performance obligation satisfied over time. Revenue is recognised for these services based on the stage of completion of the performance milestones of the contract. Management has assessed that the stage of completion of performance milestones as at the end of the reporting period is an appropriate measure of progress towards complete satisfaction of these performance obligations under IFRS 15 - Revenue from Contracts with Customers. In certain short-term contracts, as the transfer of control of a product or service to a customer is immediate, revenue is recognized as point in time.

The Group considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated (e.g., discount). In determining the transaction price for the sale of goods or rendering of services, the Group considers the effects of variable consideration, the existence of significant financing components, non-cash consideration, and consideration payable to the customer (if any).

Generally, when the Group receives short-term advances from its customers, the Group uses the practical expedient in IFRS 15 and does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be one year or less.

The Group also receives long-term advances from customers in respect of its long-term contracts which includes the provision of capacity services from satellites which are under construction. When a significant financing component is identified, the transaction price for such contracts is adjusted for time value of money, using the rate that would be reflected in a separate financing transaction between the Group and its customers at contract inception. The interest is accrued during the advance period and the transaction price is increased by a corresponding amount. Such interest is accounted for within finance costs in the consolidated statement of profit or loss.

When the Group satisfies a performance obligation by delivering the promised goods or services it creates a contract-based asset on the amount of consideration earned by the performance. Payment for services is not due from the customer until the services are complete and therefore a contract asset is recognised over the period in which the services are performed representing the entity's right to consideration for the services performed to date.

Where the amount of consideration received from a customer exceeds the amount of revenue recognised this gives rise to a contract liability. The Group classifies its contract assets and liabilities as current and non-current based on the timing and pattern of flow of economic benefits.

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably.

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 5 Revenue (continued)

##### Contract costs

The Group recognises any incremental cost incurred to obtain a contract with customer as an asset (contract cost) where:

- The Group expects to recover such costs from the customer,
- The contract is for a duration of at least 1 year or more, and
- The incremental costs would not have been incurred unless the contract was obtained.

The Group recognises these costs (which includes incentives in relation to obtaining the contract) as an asset because these costs would not have incurred if the contract had not been obtained and are expected to be recovered through the revenue earned from the contract.

The Group also recognises costs to fulfill the contract as asset when the cost are directly related to the contract, generate or enhance resources of the Group that will be used in satisfying (or in continuing to satisfy) performance obligations in the future and these costs are expected to be recovered.

Contract costs are amortised on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates.

##### Leases - the Group as a lessor

Where the Group leases satellite capacity to customers over a long-term, satellite capacity lease payments are recorded on a straight-line basis over the term of the contract concerned. Advance lease rentals represent the unearned balances remaining from amounts received from customers.

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at inception date of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset.

Leases where the Group transfers substantially all of the risks and benefits of ownership of the asset through its contractual arrangements to the customer are considered as a finance lease. Leases in which the Group does not transfer substantially all of the risks and benefits of ownership of the asset are classified as operating leases.

Income from operating leases are recognised in profit or loss on a straight-line basis over the lease term.

Revenue	Notes	2025 \$ 000	2024 \$ 000
<b>Revenue includes:</b>			
Revenue from contracts with customers (IFRS 15)		444,391	298,342

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 5 Revenue (continued)

	Notes	2025 \$ 000	2024 \$ 000
<b>Contracted future revenues</b>			
a) Remaining performance obligations from contracts with customers, expected to be recognised as revenue:			
Within one year		369,463	425,657
More than one year		4,095,996	6,334,995
		<b>4,465,459</b>	<b>6,760,652</b>
b) Future minimum lease rental receivables under non-cancellable operating leases, where Group is a lessor	33	1,997,372	2,127,066
<b>Total contracted future revenues</b>		<b>6,462,831</b>	<b>8,887,718</b>
Revenue recognised from contract liabilities at the beginning of the year		12,624	31,432
		<b>31 December</b>	<b>1 January</b>
		<b>2025</b>	<b>2024</b>
		<b>\$ 000</b>	<b>\$ 000</b>
	<b>Notes</b>		
<b>Contract balances:</b>			
Trade receivables, net of loss allowance	21	147,323	78,796
Contract assets, net of loss allowance	21	205,505	180,508
Contract liabilities	25	774,449	35,504

The disclosure on remaining performance obligations does not include the expected consideration related to performance obligations in respect of satellite services for which the Group elects to recognize revenue in the amount it has a right to invoice (e.g. subscription revenue on fixed and mobile satellite services).

Trade receivables are non-interest bearing and generally on terms ranging from 30 to 60 days (2024: 30 to 60 days) except for trade receivables that contain significant financing component which carry different payment terms.

The future minimum lease payments under operating lease arrangements, where the Group is a lessor, are disclosed in Note 33.

#### Significant accounting judgements and estimates

The Group applied the following judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers:

##### Determining whether contract awards pending detailed agreements meet the definition of contract under IFRS 15

In relation to certain projects, primarily within Smart Solutions, with the UAE Government entities, performance obligations are fulfilled based on contract awards pending detailed agreements. Management considers such contract awards meet the definition of a 'contract with customer' under IFRS 15 since the Group and the customers agree upon the essential elements of a contract and any other lawful conditions. Pending matters of detail to be agreed upon later, the contract is deemed to be binding even in the absence of agreement on these matters of detail.

##### Determination of transaction price

The Group is required to determine the transaction price in respect of each of its contracts with customers. In making such judgement the Group assesses the impact of any variable consideration in the contract, the existence of any significant financing component, non-cash consideration and consideration payable to the customer (if any).

The Group has two long-term contracts for satellite capacity and managed services with a government entity ranging from 15 to 17 years which include significant financing component.

The Group signed the Al Yah 4 and Al Yah 5 contract with a government entity (AY4/5 Contract) in 2024 for a total contract value of \$5,103.4 million. The managed services include satellite capacity services, operation and maintenance services and supply of customer terminals. The term of the AY4/5 Contract is 17 years starting from 9 November 2026 ("commencement date"). Pursuant to the terms of AY4/5 Contract, the Group is entitled to receive an aggregate amount of \$1 billion as "Advance Payment" in three instalments starting from December 2024. Accordingly, the Group received the first instalment of \$500 million in December 2024 and the second instalment of \$300 million in October 2025 which will be offset against the quarterly payments for satellite capacity and operation and maintenance services in equal instalments over a period of eight years starting from the commencement date. The contract contains both lease and non-lease components. Refer below for "Classification of leases".

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 5 Revenue (continued)

##### Significant accounting judgements and estimates (continued)

###### Determination of transaction price (continued)

The Group has a T4-NGS capacity services agreement with a government entity (T4-NGSA) for a total contract value of \$708.4 million. The term of the T4-NGSA is 15 years from the date of commencement of Operational services of T4-NGS. Pursuant to the terms of T4-NGSA, the Group received an aggregate amount of \$300 million as "Advance Payment" in two instalments, which will be offset against the quarterly payments for satellite services in equal instalments starting from the date of commencement of Operational services. In January 2025, T4-NGS satellite was successfully launched into orbit and commenced commercial operations from 1 July 2025.

Management has determined that both contracts contain significant financing component based on the following factors.

- There is a significant time gap between the receipt of the advance payment and the provision of services; and
- There is a significant difference between the amount of promised consideration and the cash selling price of the promised services.

In making its judgement, the Group's management considered the terms and conditions of these contracts and relevant accounting standard. The discount rate used to calculate the significant financing component ranged from 3.22% p.a to 4.25% p.a. Interest is accrued on the Advance Payments during the term of the contracts and revenue will be recognized over time on a straight line basis from the date of commencement of services.

###### Determining the timing of satisfaction of performance obligations

The Group recognises revenue over time as it performs continuous transfer of control of goods or services to the customers. Because customers simultaneously receive and consumes the benefits provided and the control transfer takes place over time, revenue is also recognised based on the extent of transfer/completion of transfer of each performance obligation (POs). In determining the method for measuring progress for these POs, the Group considered the nature of these goods and services as well as the nature of its performance.

Management considers recognizing revenue over time, if one of the following criteria is met, otherwise revenue will be recognized at a point in time:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group perform;
- the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- the Group's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date.

###### Contract assets

Contract assets represent amounts relating to work performed which is yet to be billed to customers. The contract assets expected to be realised after a period of one year from the reporting date are classified and presented as non-current. Significant judgments are involved in management's assessment of the amounts of revenue and contract assets recognised and the recoverability of these amounts. These judgments are reviewed as events occur and accordingly any changes thereon may have an impact on the amount of revenue and contract assets recognised in these consolidated financial statements.

The Group receives advance payments from customers. Where contracts do not specify how advances will be recovered against satisfaction of performance obligations, the allocation of proceeds against related contract assets (primarily relating to Smart Solutions) is determined based on management's judgment.

###### Classification of leases

The Group has a Capacity Services Agreement ("CSA") with a government entity, for a period of 15 years. The capacity services include the lease of capacity of satellite transponders on the AY1 and AY2 satellites and provision of services relating to the operation of satellite network. The capacity charges payable under the terms of the CSA include a lease element and a service element which corresponds to the capacity lease and provision of services respectively.

The Group has also signed the AY4/5 Contract with a government entity for a period of 17 years which commences from November 2026 following the expiry of the CSA which is currently served by AY1 and AY2 satellites. Under this contract, the Group provides lease of capacity through a pool of satellites (AY1, AY2, AY4 and AY5), services relating to the operation of the satellite network, operation and maintenance services for customer equipment, third party capacity and delivery of equipment. The contract specifies a single quarterly payment without any allocation between lease and non-lease components.

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 5 Revenue (continued)

##### Significant accounting judgements and estimates (continued)

##### Classification of leases (continued)

The Group has made various judgements in the process of determining – a) whether these arrangements contain a lease, b) whether these are operating leases or finance leases, c) how the quarterly charges should be allocated to the lease element and service element and d) how the quarterly charges relating to the lease element and service element will be accounted.

In making its judgements, the Group's management considered the terms and conditions of these contracts, the requirements of relevant standards and the relevant industry practice. The relevant standards include i) IFRS 16 - Leases and ii) IFRS 15 - Revenue from contracts with customers.

Based on the matters mentioned in the preceding paragraphs the Group management has determined that:

- the arrangements contain a lease, as these convey a right to use the asset and the fulfilment of the arrangement is dependent on the use of a specified asset
- the lease element of the arrangements will be accounted as operating lease as the Group does not transfer substantially risks and rewards incidental to ownership of the assets to the customer
- the consideration is allocated among different performance obligations based on standalone selling prices as well as taking into account existing contracts and services of similar nature (AY4/5 Contract), and
- the service element of the arrangements will be accounted as revenue to be recognized over time.

#### 6 Cost of revenue - goods and services

	2025 \$ 000	2024 \$ 000
Cost of services *	127,585	126,279
Cost of equipment and materials	45,207	20,768
	<b>172,792</b>	<b>147,047</b>

\* Cost of services relate to supplies procured by Space Services (managed solutions and mobility solutions businesses) and Smart Solutions (subcontracting costs of various projects).

#### 7 Staff costs

##### Material accounting policy information

##### Employee termination benefits

An accrual is made for the estimated liability for employees' entitlement to annual leave and leave passage as a result of services rendered by eligible employees up to the end of the year.

The Group operates unfunded defined benefit plan. Provision for employees' end of service benefits for non-UAE nationals is made in accordance with the Projected Unit Cost method as per IAS 19 Employee Benefits taking into consideration the UAE Labour Laws and ADGM Employment Regulations 2019. The provision is recognised based on the present value of the defined benefit obligations. The calculation of the present value of the defined benefit obligation is performed annually by a qualified actuary using assumptions on the average annual rate of increase in salaries, average period of employment of non-UAE nationals and an appropriate discount rate. The assumptions used are calculated on a consistent basis for each period and reflect management's best estimate. The discount rates are set in line with the best available estimate of market yields currently available at the reporting date with reference to high quality corporate bonds or other basis, if applicable.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognised immediately in other comprehensive income. The Group determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss. Remeasurements are not reclassified to profit or loss in subsequent periods.

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 7 Staff costs (continued)

##### Material accounting policy information (continued)

##### Employee termination benefits (continued)

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs. When there is a plan amendment, curtailment or settlement occurs during the annual reporting period, the Group determines the current service cost for the remainder of the period after the plan amendment, curtailment or settlement, using the actuarial assumptions used to remeasure the net defined benefit liability reflecting the benefits offered under the plan after that event. The Group also determines the net interest for the remainder of the period after the plan amendment, curtailment or settlement using the net defined benefit liability reflecting the benefits offered under the plan after that event, and the discount rate used to remeasure that net defined benefit liability.

The accrual relating to annual leave and leave passage is disclosed as a current liability, while the defined benefit obligation is disclosed as a non-current liability.

Pension contributions, a defined contribution plan, are made in respect of UAE national employees to the UAE General Pension and Social Security Authority in accordance with the UAE Federal Law No. (2), 2000 for Pension and Social Security. Such contributions are charged to the profit or loss during the employees' period of service.

	Note	2025 \$ 000	2024 \$ 000

Other expenses		5,163	1,733
		<b>200,419</b>	<b>41,581</b>

The Group did not make any material social contributions during the current year and prior year.

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 9 Other income

##### Material accounting policy information

The Group recognises income from claims for liquidated damages in profit or loss as other income or a reduction to operating costs when a contractual entitlement exists, amounts can be reliably measured and receipt is virtually certain. When such claims do not relate to compensations for loss of income or are not towards incremental operating costs, the amounts are taken to the consolidated statement of financial position and recorded as a reduction in the cost of the related asset.

Insurance proceeds received from loss claims relating to assets insured is recognised in profit or loss as other income when the Group has an unconditional contractual right to receive the compensation.

Rental income from lease of investment property is recognized on a straight-line basis over the term of the lease.

For material accounting policy information on grant income, refer note 28.

#### 11 Finance costs and Finance income

##### Material accounting policy information

##### Finance costs and finance income

The Group's finance costs include interest on borrowings, contract liabilities, lease liabilities, reclassification of net gains/losses previously recognised in OCI on derivative financial instruments and other finance costs. Finance income comprises interest income on funds invested with banks.

Finance cost or finance income is recognised as it accrues in consolidated profit or loss using the effective interest method.

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 11 Finance costs and Finance income (continued)

##### Material accounting policy information (continued)

##### Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are added to the cost of the assets until such time the assets are substantially ready for their intended use.

Where funds are borrowed specifically for the purpose of obtaining a qualifying asset, any investment income earned on temporary surplus funds is deducted from borrowing costs eligible for capitalisation. In the case of general borrowings, a capitalisation rate, which is the weighted average rate of general borrowing costs, is applied to the expenditure on qualifying assets and included in the cost of the asset.

A borrowing originally made to develop a qualifying asset is treated as part of general borrowings when substantially all of the activities necessary to prepare that asset for its intended use or sale are complete.

All other borrowing costs are recognised as an expense when incurred.

	Notes	2025 \$ 000	2024 \$ 000

\* Includes a charge representing ineffective portion of changes in fair value of cash flow hedge amounting to \$4,430 thousand (2024: Nil).

#### 12 Income tax

##### Material accounting policy information

The tax charge / benefit for the year comprise current and deferred tax.

The current income tax charge is calculated on the basis of the tax laws enacted at the end of the reporting period in the UAE and countries where the Group's subsidiaries operate and generate taxable income.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Also deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill in a business combination. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted in the jurisdiction of the individual companies by the end of the reporting period and are expected to apply when the related deferred income tax liability is settled or the deferred income tax asset is realised. A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 12 Income tax (continued)

##### Material accounting policy information (continued)

Deferred income tax is provided on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profits will be available, against which the temporary differences can be utilised.

Deferred income tax assets and liabilities offset when:

- a legally enforceable right exists to offset current income tax assets against current income tax liabilities
- the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

##### UAE Corporate Tax

On 9 December 2022, the UAE Ministry of Finance released Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses ("UAE Corporate Tax Law" or "Law"). The Law became effective on 25 October 2022, and applies to taxable persons for financial years commencing on or after 1 June 2023. The UAE Cabinet of Ministers Decision No. 116/2022, which came into effect in January 2023, confirmed that AED 375,000 is the threshold of income over which the 9% tax rate would apply. Accordingly, the Group's first tax year commenced on 1 January 2024 and the standard corporate tax rate of 9% is applicable.

As required by IAS 12 Income Taxes, the Group assessed deferred tax implications in its consolidated financial statements and recorded deferred tax liabilities arising on taxable temporary differences.

The other income taxes related to the subsidiaries in the Netherlands, Nigeria and South Africa and Japan are not significant and calculated at the rates prevailing in respective jurisdictions.

The major components of income tax for the years ended 31 December 2025 and 2024 are:

	2025 \$ 000	2024 \$ 000
Current income tax	491	10,204
Deferred tax (relating to origination and reversal of temporary differences)	(3,695)	(3,612)
<b>Income tax included in the consolidated statement of profit or loss</b>	<b>(3,204)</b>	<b>6,592</b>
<b>Income tax included in the consolidated statement of other comprehensive income</b>	<b>(434)</b>	-

The total income tax recognised in profit or loss for the year can be reconciled to the profit (loss) for the year as follows:

	2025 \$ 000	2024 \$ 000
Accounting profit (loss) before income tax for the year	(89,143)	69,400
UAE Corporate Income tax at 9% (2024: 9%)	-	6,246
Tax effects of different tax rates of subsidiaries operating in other jurisdictions	295	34
Tax effects of other non-deductible / non-taxable items	(3,695)	121
Changes in estimates related to prior years	196	142
Others	-	49
<b>Income tax charge (benefit) reported in the consolidated statement of profit or loss</b>	<b>(3,204)</b>	<b>6,592</b>

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 12 Income tax (continued)

Deferred tax relates to the following:

	Consolidated statement of financial position		Consolidated statement of profit or loss	
	2025 \$ 000	2024 \$ 000	2025 \$ 000	2024 \$ 000
Property, plant and equipment *	(752)	58	810	709
Intangible assets *	(43,001)	(45,607)	(2,606)	(652)
Others	736	70	(203)	(1)
Unutilized tax losses **	5,363	3,668	(1,696)	(3,668)
<b>Net deferred tax (liabilities)/assets</b>	<b>(37,654)</b>	<b>(41,811)</b>	<b>(3,695)</b>	<b>(3,612)</b>

Reflected in the consolidated statement of financial position as follows:

Deferred tax assets	7,493	5,470
Deferred tax liabilities	(45,147)	(47,281)
<b>Net deferred tax (liabilities)/assets</b>	<b>(37,654)</b>	<b>(41,811)</b>

Reconciliation of deferred tax (liabilities)/assets, net

	2025 \$ 000	2024 \$ 000
At 1 January	(41,811)	-
Acquisition (note 36)	-	(45,403)
Recognised in profit or loss	3,695	3,612
Recognised in other comprehensive income - cash flow hedges	434	-
Translation differences	28	(20)
<b>At 31 December</b>	<b>(37,654)</b>	<b>(41,811)</b>

\* Deferred tax mainly relates to differences in accounting base and tax base arising from fair valuation of identified assets upon merger (note 36) and consolidation adjustments for borrowing costs capitalized on qualifying assets (PPE).

\*\* The Group has unutilised tax losses of \$59,592 thousand that are expected to be utilised in future years against taxable income of the Group. Hence, deferred tax asset has been recognised as at 31 December 2025.

There are no temporary differences associated with investments in the Group's subsidiaries and associates since these investments qualify for participation interest exemption allowed under the UAE Corporate Tax Law pursuant to which substantially all income and expenses related to these investments are exempt except certain scenarios which are not applicable to the Group.

#### Global Minimum Tax

In an effort to end tax avoidance and to address concerns regarding the erosion of the global corporate tax base, a global framework for corporate taxation has been formed by the OECD/G20 Inclusive Framework and is supported by over 135 jurisdictions. The goal of the framework is to reduce the shifting of profit from one jurisdiction to another, in order to reduce global tax obligations in corporate structures and introduce a minimum 15% tax rate by jurisdiction ("Pillar Two").

On 9 December 2024, the UAE Ministry of Finance announced a 15% Domestic Minimum Top-up Tax (DMTT) for multinational enterprises (MNE) with global revenues of Euro 750 million at the ultimate parent level, aligning with the OECD Pillar Two framework. During the period, the UAE Cabinet resolution no. 142 of 2024 (the "resolution") concerning 'Imposition of UAE Qualified Domestic Minimum Top-up Taxes ("QDMTT") on Multinational Enterprises (MNE)' was issued which is effective from 1 January 2025. The resolution accompanies detailed provisions, rules and procedures on the QDMTT.

Space42 PLC and its subsidiaries are subject to QDMTT since the global revenues of the Company's ultimate parent entity exceed the minimum threshold of EUR 750 million and therefore meet the definition of constituent entities that are a member of an MNE Group, as defined under the resolution. As a result of the Group's assessment of the applicable requirements of the resolution, no QDMTT was recognised in the consolidated profit or loss during the year ended 31 December 2025.

The Group has applied the temporary exception issued by the IASB in May 2023 from the accounting requirements for deferred taxes in IAS 12. Accordingly, the Group neither recognises nor discloses information about deferred tax assets and liabilities related to Pillar Two income taxes.

### Notes to the consolidated financial statements

for the year ended 31 December 2025

## 13 Property, plant and equipment

### Material accounting policy information

#### Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition or construction of the asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment. Borrowing costs related to the acquisition or construction of a qualifying asset are capitalised.

The Group capitalises all costs relating to assets as capital work in progress, until the date of completion and commissioning of these assets including satellite performance incentives. These costs are transferred from capital work in progress to the appropriate asset category upon completion and commissioning and depreciated over their useful economic lives from the date of such completion and commissioning.

The capital work in progress relating to satellite systems may include an element of deferred consideration to satellite manufacturers referred to as satellite incentive program. The Group is contractually obligated to make these payments over the lives of the satellites, provided the satellites continue to operate in accordance with contractual specifications. Therefore, the Group accounts for these payments as deferred financing, capitalising the present value of the payments as part of the cost of the satellites and recording a corresponding liability to the satellite manufacturers. An interest expense is recognised on the deferred financing and the liability is accreted based on the passage of time and reduced as the payments are made. Once the asset satellite enters operational service, the costs are transferred to assets in use and depreciation commences.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The gains or loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognised net within other income / other expenses in profit or loss.

The cost of replacing a component of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of day to day servicing of property, plant and equipment are recognised in profit or loss as incurred.

#### Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, less its residual value.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Land is not depreciated.

Depreciation methods, useful lives and residual values are reviewed at the financial year-end and adjusted if appropriate.

The estimated useful lives used in both the current and comparative periods are as follows:

<b>Asset category</b>	<b>Years</b>
Buildings	15-40
Satellite systems	5-18
Plant and machinery	10-20
Equipment, vehicles and fixtures	
Furniture and fixtures	3-4
Land and building improvements	3-10
Office equipment and vehicles	3-5
Computers and software	3

Capital work in progress as of the end of the reporting period mainly relates to satellite systems under construction comprising of the AY4/5 satellites program, the Thuraya 4 satellite (T4-NGS) program, and development of low earth orbit (LEO) and high-altitude platform systems (HAPS) amounting to \$628.7 million (2024: \$892.3 million). Additions during the year mainly relate to satellites systems amounting to \$229.5 million (2024: \$119.9 million). During the year, T4-NGS satellite was successfully launched into orbit and commenced commercial operations on 1 July 2025. The Group also successfully deployed three LEO satellites, which remain under in-orbit testing and commissioning at the reporting date.

\* During the year, the Group recognised impairment loss on property, plant and equipment of \$9,735 thousand relating to Smart Solutions segment (2024: nil) (note 4).

Equipment, vehicles and fixtures include office equipment, computers, vehicles, furniture and fixtures and leasehold improvements.

Borrowing costs capitalised during the year amounted to \$21,076 thousand at a capitalisation rate of 3% p.a. (2024: \$6,413 thousand at a capitalization rate of 3% p.a.) (refer note 11).

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 14 Leases - Group as a Lessee

This note provides information for leases where the Group is a lessee, related right-of-use assets and lease liabilities.

##### Material accounting policy information

Leases, where the Group is a lessee, are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Group under residual value guarantees
- the exercise price of a purchase option if the Group is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the lessee which does not have recent third party financing, and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

The Group is exposed to potential future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset. The Group did not make any such adjustments during the periods presented.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases or lease of low value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

A lease modification is a change in scope of the lease, or the consideration for the lease that was not part of the original terms of the lease. When a modification increases the scope of the lease adding more underlying assets and the consideration is commensurate, the modification is accounted as a separate lease contract. However, if a modification increases the scope of the lease without adding the right to use of more underlying assets, or the increase in lease consideration is not commensurate, the modification is accounted for by remeasuring the existing lease. If the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, a lessee shall recognise any remaining amount of the remeasurement in profit or loss. The lease liability is remeasured at the effective date of modification, using a revised discount rate, with a corresponding adjustment to the right of use asset. The lessee uses the incremental borrowing rate as the revised discount rate if the rate implicit in the lease for the remainder of the lease term is not readily determinable.

The Group applies IAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'Property, Plant and Equipment' policy. Variable rents that do not depend on an index or rate are not included in the measurement the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs.

As a practical expedient, IFRS 16 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement. The Group has not used this practical expedient. For a contract that contain a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The estimated useful lives of right-of-use assets are as follows:

Asset category	Years
Right-of-use assets - buildings	2-10
Right-of-use assets - satellite capacity	2-5
Right-of-use assets - naming rights	10

## Space42 PLC

### Notes to the consolidated financial statements

<b>Amounts recognized in consolidated profit or loss in relation to leases</b>			
Depreciation expense of right-of-use assets		4,983	1,090
Interest expense on lease liabilities		1,240	402
Expense relating to of short-term leases and low-value assets (included in other operating expenses)		682	95
<b>Total</b>		<b>6,905</b>	<b>1,587</b>
<b>Cash flow information</b>			
Total cash outflows for leases		4,846	1,224

The Group has lease agreements for office premises, warehouse, premises to host its satellite gateway equipment, satellite capacity assets and naming rights. Rental contracts are typically made for fixed periods of 2 years to 10 years, but may have extension options (2024: 2 to 10 years).

During the current year, the Group entered into lease agreements mainly for satellite capacity lease for 5 years. During the prior year, the Group entered into lease arrangements for satellite capacity leases, office spaces and naming rights for a period ranging from 2 years to 10 years. All additions are non-cash.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants. Leased asset may not be used for borrowing purposes. The Group has a lease contract that includes extension and termination options. The options are negotiated by management to provide flexibility in managing the Group's business needs. Management has considered extension option in determining the lease term since Management believes that the extension option is reasonably certain to be exercised.

The maturity analysis of lease liabilities is disclosed in Note 35.

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 15 Intangible assets and goodwill

##### Material accounting policy information

Licenses, representing a right to transmission of telecommunication signals utilizing geo-stationary satellite and use of associated radio frequencies, are capitalized at cost only when future economic benefits are probable. Cost includes purchase price together with any directly attributable expenditure.

Expenditure on research activities is recognised in consolidated profit or loss as incurred. Development expenditure is capitalised only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to and has sufficient resources to complete development and to use or sell the asset. Otherwise, it is recognised in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost less accumulated amortisation and accumulated impairment losses, if any.

Other intangible assets that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortisation and any accumulated impairment losses. Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised. Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives, and is recognised in profit or loss.

Refer note 36 Business combinations, for accounting policy on goodwill.

The estimated useful lives for current and comparative periods are as follows:

<b>Asset category</b>	<b>Years</b>				
Development costs (user terminal development)	3-5				
Customer contracts and relationships	15-19				
Software and licenses					
Software (including operation and billing support systems)	2-10

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 15 Intangible assets and goodwill (continued)

##### **Acquisition during the prior year**

The customer contracts and relationships were acquired and recognised as part of the merger (see note 36 for details). The customer contracts include the long-term satellite capacity contracts with the UAE Government while the customer relationships represent the Group's long-term relationships with customers relating to Space Services.

The Group recognised goodwill of \$173,310 thousand arising on a business combination during the prior year. The goodwill represents the future economic benefits expected to arise from synergies of the combined operations, the value of the assembled workforce, and the going concern value of the acquired business as a whole (see note 36 for details).

In the prior year, for impairment-testing purposes, the Group allocated goodwill to the Infrastructure and Managed Solutions CGUs, being the CGUs expected to benefit from the synergies of the related business combination.

During the current year, Management reassessed the composition of the Group's CGUs following the merger and the launch of T4-NGS. As a result of this reassessment, the Infrastructure and Managed Solutions CGUs which mainly included Government Ka and C Band solutions have been aggregated into a single CGU namely, Infrastructure (refer note 3 'Impairment of non-financial assets').

For impairment testing as at 31 December 2025, goodwill has been allocated to the Infrastructure CGU.

##### **Goodwill impairment assessment:**

The recoverable amount of the Infrastructure CGU was based on fair value less costs of disposal, estimated using discounted cash flows using inputs to the valuation technique that fall under Level 3 of the fair value hierarchy. The Group has significant in-house expertise and experience in performing impairment testing internally, having applied a consistent DCF methodology for annual impairment assessments over many years. The recoverable amount as at 31 December 2025 has been determined using cash flow projections from the budget and business plan approved by the Board of Directors for the years 2026-2030. The cash flow projections extrapolated into perpetuity at growth rates ranging from 1%-2% and discounted using estimated discount rates ranging from 8.2%-9.4% as per the varying risks underlying cash flow streams. The discount rates and terminal growth rates consider updated market conditions, including shifts in risk-free rates, equity risk premiums, and industry beta reflecting evolving capital market dynamics. No other material deviations from historical patterns or previous experience were made in setting assumptions. The impairment test at 31 December 2025 determined that the recoverable amount of the Infrastructure CGU far exceeds its carrying value and no impairment was required.

##### **Sensitivity analysis:**

Sensitivities to the key assumptions such as discount rate and perpetual growth rate were also tested for the above CGU and the Group has determined that no reasonably possible changes would give rise to impairment at 31 December 2025.

**Space42 PLC****Notes to the consolidated financial statements**

for the year ended 31 December 2025

**16 Group information****A) Subsidiaries****Material accounting policy information**

Subsidiaries are entities controlled by the Group. Control exists when the Group is exposed, or has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. In assessing control, potential voting rights of an entity that are presently exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. Adjustments are made to the amounts reported by subsidiaries, when necessary, to align them with the policies adopted by the Group.

**Transactions eliminated on consolidation**

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in full in preparing the consolidated financial statements.

**The consolidated financial statements of the Group include:**

<b>Name</b>	<b>Principal activities</b>	<b>Country</b>	<b>Equity % 2025</b>	<b>Equity % 2024</b>

**Space42 PLC****Notes to the consolidated financial statements**

for the year ended 31 December 2025

**17 Equity-accounted investments****Material accounting policies**

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. Investments in associates are accounted for using the equity method and are recognised initially at cost. The cost of the investment includes transaction costs.

The consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of the associates, after adjustments to align the accounting policies with those of the Group, from the date that significant influence commences until the date that significant influence ceases.

When the Group's share of losses exceeds its interest in an associate, the carrying amount of that interest, including any long-term investments, is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or has made payments on behalf of the investee.

**Transactions eliminated on consolidation**

Unrealised gains arising from transactions with associates are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Please refer to note 36 for the Group's accounting policies on acquisition of an associate in a business combination.

**The group's associates are:**

<b>Name</b>	<b>Principal activities</b>	<b>Country</b>	<b>Equity % 2025</b>	<b>Equity % 2024</b>
Sindan-Additive Manufacturing Center of Excellence L.L.C *	Engineering, design and consultancy using 3D printing technology	UAE	-	25%
Al Maisan Satellite Communication Company LLC (Al Maisan) **	Leasing of satellite capacity primarily for broadcasting customers	UAE	65%	65%
HNS Participações Empreendimentos S.A. (HPE; Brazil JV Co)	Telecommunication services via satellite	Brazil	20%	20%

\* The Group had 25% ownership in Sindan-Additive Manufacturing Center of Excellence ("Sindan" or the "Associate") which was incorporated on 15 June 2023 as a Limited Liability Company in Abu Dhabi, UAE. The shares were allocated to the Group in consideration for the contribution of the necessary know-how to Sindan. During the prior year, the shareholders of Sindan approved to transfer their ownership in Sindan to another party for nil consideration. As at 31 December 2024, the legal formalities for the transfer of shares were in progress and were completed on 23 January 2025.

\*\* Although the Group holds more than 50% of the equity in Al Maisan, it does not control the financial and/or operating policies of Al Maisan. This is pursuant to an agreement, which provides the majority board representation to other shareholder of Al Maisan. However, as the Group has the power to participate in the financial and operating policy decisions of Al Maisan due to its representation on the board, it accounts for its investment as an associate.

<b>Movement in the other financial assets:</b>		
At 1 January	762	-
Acquisition (note 36)	-	2,146
Fair value losses	(762)	(1,384)
<b>At 31 December</b>	<b>-</b>	<b>762</b>

i) The Group held an investment in convertible preference shares ("preferred stock") of a start-up venture which aims to provide direct-to-satellite, ultra-low power, two-way, and low-latency narrowband connectivity solutions for IoT devices anywhere on earth. The preferred stock (Series-A) were non-cumulative, carried an option to convert into common stock and certain preferential rights upon dissolution. As the preferred stock did not carry any residual interest, the Group accounted for the investment at fair value through profit or loss.

During the prior year, the Group's preference shares were exchanged for a promissory note with substantially different terms which led to derecognition of preference shares and recognition of a promissory note at fair value. The difference between the fair value of the preference shares and the fair value of the promissory note amounting to \$1,384 thousand was recognised in the consolidated profit or loss for the year ended 31 December 2024. The promissory note is subsequently measured at amortized cost. The principal amount of the promissory note is \$4 million which carries simple interest of 3.7% per annum and is repayable in October 2033. During the year, the fair value of the remaining carrying amount of the promissory note amounting to \$762 thousand was reduced to nil due to the low probability of recovery.

ii) The Group has a Convertible Loan Agreement ("CLA") with a customer for a total Convertible Loan ("Loan") amount of \$17,500 thousand. The Loan has a maturity date of 31 December 2026 and carries an option to convert into equity. As at 31 December 2025, the fair value of the CLA is nil as the customer has filed for bankruptcy and the probability of recovery is considered remote.

**Space42 PLC****Notes to the consolidated financial statements**

for the year ended 31 December 2025

**19 Inventories****Material accounting policy information**

Inventories are stated at the lower of cost and net realisable value, after making loss allowance to account for obsolete or slow moving items. Costs are assigned to individual items of inventory on the basis of weighted average costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

	<b>2025</b>	<b>2024</b>
	<b>\$ 000</b>	<b>\$ 000</b>
<b>Inventories</b>		
Equipment and accessories - satellite services	28,557	31,993
Ground operations spares	1,488	1,606
	<b>30,045</b>	<b>33,599</b>
Loss allowance	(11,625)	(7,476)
	<b>18,420</b>	<b>26,123</b>
<b>Movement in loss allowance for inventories:</b>		
At 1 January	7,476	-
Acquisition (note 36)	-	6,727
Charge during the year (note 8)	4,149	749
<b>At 31 December</b>	<b>11,625</b>	<b>7,476</b>

During the year, \$25,486 thousand (2024: \$14,226 thousand) of inventories were recognised as cost of equipment and accessories sold.

**20 Related party transactions and balances****Identity of related parties**

The Group, in the ordinary course of business, enters into transactions, at agreed terms and conditions, with other business enterprises or individuals that fall within the definition of related party contained in International Accounting Standard 24 Related Party Disclosures.

The Group has a related party relationship with the Parent Company and business entities over which the Parent Company can exercise control or significant influence; entities which are under common control of the shareholders of the Parent Company and associates. The Group has assessed that the Government of Abu Dhabi and its entities meet the definition of related party and hence has disclosed them under 'Government entities'.

The Group maintains significant balances with these related parties, which arise from commercial transactions.

**a) Related party transactions:**

**(i) Transactions with a government entity**

a) The Group provides capacity services pursuant to the Capacity Services Agreements ("CSAs") with a government entity. The future payments pertaining to the lease element included in the capacity charges, where the Group is the lessor, are provided in the table below.

The Group has entered into long-term satellite capacity and managed services agreements with a government entity. These contracts include upfront Advance Payments which will be offset against quarterly payments. Management has determined that these contracts contain a significant financing component (see note 5).

	Note	2025 \$ 000	2024 \$ 000

<b>At 31 December</b>	33	<b>1,995,220</b>	<b>2,123,404</b>

b) The Group has entered into various contracts with the government entity for the provision of end-to-end integrated satellite communication and managed services which include operation, maintenance, system capability management and technology refresh services. Revenue from such contracts are reported as revenue from government entities. The balance due from the government entity at the reporting date, includes amounts invoiced to date in relation to the afore-mentioned contracts.

c) The Government has allocated a plot of land (Secondary site in the emirate of Abu Dhabi) to the Company and has granted permission to the Company to construct and access a Satellite Ground Control Station on the plot. Title to the plot of land has not been transferred to the Company and accordingly the plot has not been recognized in the consolidated financial statements. In addition, refer to note 28 to the consolidated financial statements which discloses information about another plot of land (Primary site) received by the Company.

**Space42 PLC****Notes to the consolidated financial statements**

for the year ended 31 December 2025

**20 Related party transactions and balances (continued)****(ii) Transactions with other government entities**

Star has also entered into contracts with various other government entities for the provision of managed services.

**(iii) Transactions with associates**

a) Star charges both associates, Al Maisan and HPE for satellite operations support services.

b) Star also leases satellite capacity from Al Maisan to facilitate the requirements of its customers relating to managed services contracts.

The outstanding amounts at year end, except for advance lease rentals from related parties (note 24) which carry specific terms as specified above, are expected to be settled in cash.

Also refer note 26 for other related party transactions.

Contract assets relate to the Group's right to consideration for goods and services provided but not billed at the reporting date. Contract assets are recognised for value of work performed and milestones completed in excess of amounts billed to the customer. These relate to turnkey and services contracts of Smart Solutions and Space Services. The contract assets are transferred to receivables when the rights become unconditional which usually occurs when the Group issues an invoice to the customer. All the contract assets are expected to be realized within one year hence classified under current assets.

	2025 \$ 000	2024 \$ 000
<b>Movement in the allowance for expected credit losses (contract assets):</b>		
At 1 January	8,368	5,028
Allowance for expected credit losses, net <sup>(i)</sup>	107,603	3,355
Exchange differences	-	(15)
<b>At 31 December</b>	<b>115,971</b>	<b>8,368</b>

<sup>(i)</sup> At the end of the reporting period, the Group updated its methodology for measuring the loss allowance for trade receivables and contract asset balances adopting a more prudent approach for the Smart Solutions business unit. Where appropriate, the expected credit loss was measured at contract level and considered contract completion status and age of related balances. Based on this assessment, the Group recorded an additional loss allowance of \$124,505 thousand during the year, including \$49,945 thousand relating to the change in the methodology accounted as a change in accounting estimate applied prospectively in accordance with IAS 8 (note 3).

The table below provides customer segmentation of trade receivables and contract assets along with loss allowance:

	2025		2024	
	Gross carrying amount \$ 000	Loss allowance \$ 000	Gross carrying amount \$ 000	Loss allowance \$ 000
<b>Categories of trade receivables and contract assets</b>				
<b>Smart Solutions</b>				
Government customers	293,535	(78,752)	192,180	(7,589)
General category	74,875	(55,695)	151,178	(1,585)
	<b>368,410</b>	<b>(134,447)</b>	<b>343,358</b>	<b>(9,174)</b>
<b>Space Services</b>				
Infrastructure business	66,248	(435)	55,385	(1,507)
Mobility and Data Solutions businesses	83,762	(30,710)	76,112	(23,129)
	<b>150,010</b>	<b>(31,145)</b>	<b>131,497</b>	<b>(24,636)</b>
	<b>518,420</b>	<b>(165,592)</b>	<b>474,855</b>	<b>(33,810)</b>

The Group's exposure to credit risk is disclosed in note 35.

**Space42 PLC****Notes to the consolidated financial statements**

for the year ended 31 December 2025

**22 Contract costs**

	<b>2025</b>	<b>2024</b>
	<b>\$ 000</b>	<b>\$ 000</b>
Cost to fulfil the contract *	2,837	12,450
Cost to obtain the contract	2,378	3,084
<b>Contract costs</b>	<b>5,215</b>	<b>15,534</b>
of which non-current	2,378	2,378
of which current	2,837	13,156

\* During the year, the Group impaired \$7.1 million of contract costs in respect of Smart Solutions business as these are no longer recoverable. The impairment charge was recognised in cost of revenue - goods and services.

Costs to obtain a contract relates to incentives in relation to obtaining a certain contract with a customer.

**23 Cash and short-term deposits**

	<b>2025</b>	<b>2024</b>
	<b>\$ 000</b>	<b>\$ 000</b>
	<b>Notes</b>	
Cash on hand and in banks		91,862
Cash at banks - related parties	20	310,357
Short-term deposits with banks - third parties		-
Short-term deposits with banks - related parties	20	515,210
Wakala deposits - related parties	20	77,588
<b>Cash and short-term deposits</b>		<b>995,017</b>
Less: Short-term deposits with original maturities of over three months		(430,065)
<b>Cash and cash equivalents</b>		<b>732,545</b>

Balances with banks are assessed to have low credit risk of default since these banks are highly regulated by the central banks of the respective countries. Accordingly, management of the Group have assessed that there is no impairment loss required to be recorded against balances with banks.

Wakala deposits have maturities of 2 weeks to 3 months (2024: 2 weeks to 3 months) from the date of placement and carry profit rates ranging on average from 3.4% to 4.3% (2024: 4.0% to 5.2%). Deposits are placed on recurring basis and can be terminated anytime without prior notice and with a deduction of Wakala fee and a performance incentive from the actual realised investment profit. Income on Wakala deposits was \$3,327 thousand (2024: \$6,943 thousand).

Short term deposits have maturities of 1 month to 3 months (2024: 1 month to 3 months) and carry interest rates on average ranging from 3.15% to 5.5% per annum (2024: 3.15% to 5.5% per annum).

For purposes of the consolidated statement of cash flows, changes in lease liabilities and borrowings arising from financing activities are disclosed in notes 14(B) and 26, respectively.

**24 Trade and other payables**

*Trade and other payables due to related parties	20	514,991

**Space42 PLC****Notes to the consolidated financial statements**

for the year ended 31 December 2025

**24 Trade and other payables (continued)**

(i) Represents obligation payable to the satellite manufacturer in relation to T4-NGS provided that it continues to operate satisfactorily in accordance with contractual specifications.

(ii) Includes advances received by Space Services from the UAE Government relating to lease elements under a) the CSA amounting to \$65 million (2024: \$140 million) and b) the AY4/5 Contract amounting to \$384 million (2024: \$240 million).

The average credit period on the purchase of goods is 30-60 days (2024: 30-60 days). The Group has financial risk management policies in place to ensure that all payables are paid within credit period.

Accruals include employee-related accruals of \$17,164 thousand (2024: \$9,902 thousand).

**25 Contract liabilities**

	Note	2025 \$ 000	2024 \$ 000
Space Services - related parties * <sup>(1)</sup>		750,064	581,054
Space Services - third parties		16,869	20,815
Smart Solutions - related parties *		5,177	3,481
Smart Solutions - third parties		2,339	2,255
<b>Contract liabilities</b>		<b>774,449</b>	<b>607,605</b>
of which non-current		721,682	555,721
of which current		52,767	51,884
* Contract liabilities due to related parties	20	755,241	584,535

Contract liabilities primarily relate to advance consideration received from customers for satellite communication services, managed services, orbital resources (Channel bandwidth), airtime contracts, unutilized airtime balances from prepaid scratch cards, SIM cards and software development, installation and support services.

<sup>(1)</sup> Includes advances received by Space Services from the UAE Government under a) the T4-NGSA amounting to \$295 million (2024: \$300 million) and b) the AY4/5 Contract amounting to \$416 million (2024: \$260 million) relating to service element.

**26 Borrowings**

	2025 \$ 000	2024 \$ 000
<b>The carrying amount of borrowings are as follows:</b>		
Principal amounts	267,690	657,360
Unamortised transaction costs	(8,457)	(10,701)
<b>Term loans - net of unamortised transaction costs</b>	<b>259,233</b>	<b>646,659</b>
of which current	88,004	388,746
of which non-current	171,229	257,913

The breakdown of the carrying amounts of the term loans is as follows:

	Repayment tenor Years	Principal amount \$ 000	Unamortised transaction costs \$ 000	Carrying amount \$ 000
<b>At 31 December 2025</b>				
Term loan 1	2022-2026	60,000	(534)	59,466

2 - 5 years	-	89,010	-	89,010
Beyond 5 years	-	59,340	-	59,340
	<b>60,000</b>	<b>207,690</b>	<b>-</b>	<b>267,690</b>
<b>At 31 December 2024</b>				
Within one year	110,000	29,670	250,000	389,670
1 - 2 years	60,000	29,670	-	89,670
2 - 5 years	-	89,010	-	89,010
Beyond 5 years	-	89,010	-	89,010
	<b>170,000</b>	<b>237,360</b>	<b>250,000</b>	<b>657,360</b>

Term loan 1: The Group has a Term Facility of \$400 million (Term loan 1 or 2021 Term Loan \$400m Facility) with a tenor of five years and is repayable in eight semi-annual instalments starting from 14 December 2022. Term loan 1 bears interest at compounded reference rate plus margin of 1.30%. The compounded reference rate is based on Secured Overnight Financing Rate (SOFR) and credit adjustment spread. During the year, the Group repaid \$110,000 thousand.

Term loan 2: The Group has an export credit agency facility through a BPIFAE Facility Agreement (Term loan 2 or ECA Facility) to partly fund the capital expenditure relating to the T4-NGS. The total amended facility amount is \$273 million with a tenor of 8.5 years and an availability period starting from 14 June 2021 until the date falling 5 months after the starting point of credit. During the year, the Group repaid an amount of \$29,670 thousand against the loan.

The ECA Facility bears interest at compounded reference rate plus margin of 0.60%. During the prior year, an amount of \$23,118 thousand was drawn from this facility including interest capitalization of 12 thousand. As of 31 December 2025, the unutilised facility amounted to \$19,855 thousand (2024: \$19,855 thousand).

Term loan 3: The Group obtained a short-term Bridge Facility Agreement (Bridge Facility) to finance the capital expenditure relating to AY4/5 Satellite Program. The total facility amount was \$300 million with a repayment period of 12 to 18 months from the date of the agreement. The Bridge Facility carried interest at SOFR plus margin of 0.68% per annum. During the year, the Group has fully repaid this loan amounting to \$250 million.

Term loan 4: During the year, the Group has signed an Export Credit Agency (ECA)-backed financing facility to partly fund the capital expenditure relating to AY4/5 Satellite Program. The total facility amount is \$695.5 million, bifurcated into two tranches with \$381.3 million attributable to Tranche A (relating to AY4) and \$314.2 million attributable to Tranche B (relating to AY5). The availability period starts from 23 July 2025 until the date falling 3 months after the starting point of credit (as defined in the agreement). The loan will be repaid in twenty four equal semi-annual instalments commencing from six months after the end of the starting point of credit. The entire facility remains undrawn as at 31 December 2025.

Term loan 1, 2 and 4 contain customary representations, warranties, covenants and undertakings including limitations on incurrence of financial indebtedness, mergers, acquisitions, disposals and negative pledge in relation to certain assets of the Group except, in each case, as permitted under the terms of the facility documents. The Group is required to maintain an interest cover ratio of not less than 4.00:1 and a net leverage ratio of no more than 3.00:1, in each case on a calculation date (which occurs on 30 June and 31 December in each financial year). As at 31 December 2025 and 2024, the Group is in compliance with these covenants.

Borrowings include outstanding balances due to related party banks aggregating to \$17,250 thousand (2024: \$48,875 thousand). The net interest on loans from related party banks was net credit of \$8,489 thousand as a result of 'in the money' position of derivative financial assets (2024: net credit of \$3,072 thousand).

**Space42 PLC****Notes to the consolidated financial statements**

for the year ended 31 December 2025

**27 Derivative financial instruments****Material accounting policy information****Derivative financial instruments including hedge accounting**

The Group holds derivative financial instruments to hedge its interest rate risk exposures. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which it wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge.

The documentation includes identification of the hedging instrument, the hedged item, the nature of the risk being hedged and how the Group will assess whether the hedging relationship meets the hedge effectiveness requirements (including the analysis of sources of hedge ineffectiveness and how the hedge ratio is determined). A hedging relationship qualifies for hedge accounting if it meets all of the following effectiveness requirements:

- There is 'an economic relationship' between the hedged item and the hedging instrument.
- The effect of credit risk does not 'dominate the value changes' that result from that economic relationship.
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the Group actually uses to hedge that quantity of hedged item.

Hedges that meet all the qualifying criteria for hedge accounting are accounted for, as described below:

**Cash flow hedges**

When a derivative is designated as the hedging instrument in a hedge of the variability in cash flows attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction that could affect profit or loss, the effective portion of changes in the fair value of the derivative is recognised in other comprehensive income and presented in the hedging reserve in equity. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in profit or loss.

If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated, exercised, or the designation is revoked, then hedge accounting is discontinued prospectively. If the forecast transaction is no longer expected to occur, then the balance in equity is reclassified to profit or loss.

**Interest rate exposure**

The Group has an obligation to pay interest at variable rates in connection with its borrowings. Interest rate sensitivity is disclosed in note 35.

## Space42 PLC

### Notes to the consolidated financial statements

for the year ended 31 December 2025

#### 27 Derivative financial instruments (continued)

##### B) Hedge reserve

The hedging reserve comprises the effective portion of the cumulative net change in the fair value of the cash-flow hedging instruments related to forecasted transactions.

##### Accounting estimates and judgements

###### Fair value of derivative financial instruments

The fair value of derivative financial instruments is based on their quoted market price, if available. Where the fair value of such instruments cannot be derived from active markets, it is determined using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. The judgements include consideration of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of derivative financial instruments.

The fair value measurement classification of the derivative financial instruments is disclosed in note 35.

#### 28 Government grants

##### Material accounting policy information

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

##### Non-monetary government grants

The Group receives certain assets, primarily in the form of land, from entities related to the Government of the Emirate of Abu Dhabi, as grants to carry out its operations. When it is probable that future economic benefits will flow to the Group, such land received is recognised in the consolidated financial statements at nominal value.

##### Monetary government grants

Monetary grants that compensate the Group for expenses to be incurred are initially recognised in the consolidated statement of financial position as a deferred liability. Subsequent to initial recognition, such grants are released to profit or loss on a systematic basis over the periods in which the related expenses are recognised. Income from government grants is presented under 'Other income'.

Where monetary government grants compensate for the cost of assets, such assets are carried at cost, less the value of the monetary government grants received. Asset values so derived are depreciated over the useful life of the relevant asset.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the group with no future related costs are recognised in profit or loss in the period in which they become receivable.

The Group has a plot of land (Primary site) received from the Urban Planning Council, of the Government of Abu Dhabi as a government grant. The plot of land has been used to construct the Satellite Ground Control Station, which forms an integral part of the satellite system. Accordingly, the plot of land has been classified as property, plant and equipment.

During the year, the Group received reimbursement of cost incurred towards purchase of property, plant and equipment and intangible assets amounting to \$7,410 thousand. The amount received has been adjusted against the cost of the assets (note 13 and 15).

During the prior year, the Group recognised reimbursement of expenses of \$2,868 thousand as a result of an incentive to enhance artificial intelligence capabilities of the Group. There are no unfulfilled conditions or other contingencies attaching to this incentive. During the year, a net reversal of \$921 thousand was recorded in respect of grant recognised in the prior year as no longer receivable (note 9).

**Space42 PLC****Notes to the consolidated financial statements**

for the year ended 31 December 2025

**29 Defined benefit obligations****Material accounting policies**

For material accounting policies on defined benefit obligations, refer note 7.

The Group provides end of service benefits (defined benefit obligations) to its eligible employees. An actuarial valuation is performed by engaging an independent actuarial valuation specialist. The present value of defined benefit obligations and the related current and past service cost, are measured using the Projected Unit Credit Method.

	<b>2025</b>	<b>2024</b>
	<b>\$ 000</b>	<b>\$ 000</b>
<b>Unfunded plan</b>		
Present value of defined benefit obligation	<b>11,125</b>	12,253
	<b>2025</b>	<b>2024</b>
	<b>\$ 000</b>	<b>\$ 000</b>
The movement in defined benefit obligation is as follows:		
At 1 January	12,253	2,149
Acquisition (note 36)	-	10,178
Current service cost	1,822	792
Past service cost	(1,340)	(430)
Interest cost	568	202
Benefits paid	(4,316)	(795)
Transfers	158	117
Other movements	-	161
Actuarial loss (gain)	1,980	(121)
At 31 December	<b>11,125</b>	<b>12,253</b>
	<b>2025</b>	<b>2024</b>
	<b>\$ 000</b>	<b>\$ 000</b>
The amounts recognised in the consolidated statement of profit or loss are as follows:		
Current service cost	1,822	792
Past service cost	(1,340)	(430)
Interest cost	568	202
	<b>1,050</b>	<b>564</b>
	<b>2025</b>	<b>2024</b>
	<b>\$ 000</b>	<b>\$ 000</b>
Following are the significant assumptions used in the actuarial valuation:		
Discount rate	4.86%	5.13%
Salary growth rate	2.25%	2.25%

**Sensitivity analysis**

The calculations of the defined benefit obligations are sensitive to the significant actuarial assumptions set out above. The sensitivity analyses have been determined based on a method that extrapolates the impact on the defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period. Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the percentages shown below:

	<b>Impact on defined benefit obligation</b>	
	<b>2025</b>	<b>2024</b>
Discount rate		
0.5% increase	-2.60%	-3.80%
0.5% decrease	2.80%	4.00%
Salary growth rate		
0.5% increase	3.10%	4.30%
0.5% decrease	-2.90%	-4.10%

The sensitivity analyses above may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation from one another.

As at 31 December 2025, the weighted average duration of the defined benefit obligation was 5.7 years (2024: 8.17 years).

**Space42 PLC****Notes to the consolidated financial statements**

for the year ended 31 December 2025

**30 Share capital**

	2025 \$ 000	2024 \$ 000
<b>Issued and fully paid:</b>		
4,761,905,551 shares of \$0.027 each (AED 0.10 each)	129,664	129,664

The movement in the share capital is as follows:

	2025 \$ 000	2024 \$ 000
At 1 January	129,664	70,018
Issue of new shares *	-	59,646
<b>At 31 December</b>	<b>129,664</b>	<b>129,664</b>

\* On 1 October 2024, the Company merged with Yahsat and its name was changed to Space42 Plc. Consequently, Yahsat was delisted and its assets and liabilities were transferred to the Company in exchange for the issuance of 2,190,476,979 new ordinary shares of AED 0.1 each to former Yahsat shareholders (note 1 and note 36) resulting into share premium of \$1,359,914 thousand. As at 31 December 2025, the Company's share premium amounts to \$1,514,253 thousand (2024: \$1,514,253 thousand).

On 13 October 2022, pursuant to the public offering, the share capital of the Company was increased to \$70,018 thousand (AED 257,143 thousand divided into 2,571,428,572 shares of AED 0.1 each), with 571,428,572 shares being offered for public subscription. The Company's offer price was set at AED 1.1 per share and was fully subscribed, resulting into share premium of \$154,339 thousand (AED 571,429 thousand). Share issue costs amounted to \$1,258 thousand (AED 4,620 thousand).

**31 Other reserve**

The UAE Federal Decree-Law No. 32 of 2021 (as amended by Federal Decree-Law No. 20 of 2025) requires that 10% of the Public Companies' profit (5% of the Limited Liability Companies' profit) be transferred to a non-distributable reserve until the amount of the reserve becomes equal to 50% of the paid-up share capital. The consolidated financial statements include statutory reserve of the Company's subsidiaries since the Company is not required by ADGM regulations to transfer its profits to statutory reserve.

**32 Capital commitments and contingent liabilities**

	2025 \$ 000	2024 \$ 000
Capital commitments - committed and contracted	451,964	639,670
Contingent liabilities - performance bonds and letter of credits provided by banks in the normal course of business	943,019	636,736

Capital commitments mainly relate to AY4/5 Satellite Program, low earth orbit (LEO) satellites and high-altitude platform systems (HAPS) assets under construction. The balances as at 31 December 2024 also include capital commitments related to T4-NGS program.

**33 Leases - Group as a Lessor**

The future minimum lease rental receivables under non-cancellable operating leases are as follows:

	2025 \$ 000	2024 \$ 000	
	<b>Note</b>		
Satellite capacity leases - related party	20 (i)	1,995,220	2,123,404
Other leases: *

Basic and diluted earnings (loss) per share (cents)	(1.752)	1.998
Basic and diluted earnings (loss) per share (filis)	(6.433)	7.337

On 1 October 2024, the Company issued 2,190,476,979 new ordinary shares of AED 0.1 each (note 30), accordingly the number of shares have been adjusted for the purpose of calculating weightage average number of ordinary shares as at 31 December 2024.

**35 Financial risk management****Overview**

The Group has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital. Further quantitative disclosures are included throughout these consolidated financial statements.

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework and is responsible for developing and monitoring the Group's risk management policies.

**Credit risk**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables, derivative financial instruments, other financial assets and cash held at bank.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	<b>Notes</b>	<b>2025</b> <b>\$ 000</b>	<b>2024</b> <b>\$ 000</b>
Derivative financial assets	27	13,278	25,736
Other financial assets	18	-	762
Trade receivables	21	147,323	140,017
Other receivables		6,764	22,049
Contract assets	21	205,505	301,028
Cash and short-term deposits	23	995,017	1,162,610
		<b>1,367,887</b>	<b>1,652,202</b>

**Trade receivables and contract assets**

Customer credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to customer credit risk management. New customers are analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. Outstanding trade receivables and contract assets are regularly monitored.

An impairment analysis is performed at each reporting date using loss rates applied against each customer segment to measure expected credit losses. The provision rates are based on historical patterns of default for groupings of various customer segments with similar loss patterns (i.e., by geographical region, customer type and age profile). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. The analysis and segmentation of customers is determined for Space Services by business (infrastructure, managed solutions, mobility solutions and data solutions) and for Smart Solutions by customer (Government, others).

The Group does not hold collateral as security. The Group considers the risk of concentration as low, with respect to trade receivables and contract assets, since credit risk is mitigated by the financial stability of its customers of which approximately 77% (2024: 70%) are government related entities. Moreover, a substantial portion of the remaining customers are located in several jurisdictions and industries and operate in largely independent markets.

**Space42 PLC****Notes to the consolidated financial statements**

for the year ended 31 December 2025

**35 Financial risk management (continued)****Credit risk (continued)****Derivative financial instruments and bank balances**

The Group has credit risk arising from its derivatives used for hedging, which are settled on a net basis. With respect to these derivatives and cash and short-term deposits, management manages its credit risk by only dealing with reputable banks.

**Liquidity risk**

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. The Group ensures that it has sufficient cash and liquid assets on demand to meet its operational and capital expenses. This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

Summarised below in the table is the maturity profile of financial liabilities based on the remaining period at the end of reporting period to the contractual maturity date. The amounts disclosed are the contractual undiscounted cash flows.

	Within one year \$ 000	1 - 2 years \$ 000	2 - 5 years \$ 000	Beyond 5 years \$ 000	Total \$ 000
<b>2025</b>					
Borrowings	99,142	37,147	104,728	63,133	304,150
Lease liabilities	6,556	5,328	12,996	4,671	29,551
Trade and other payables (excluding advances)	293,440	-	-	-	293,440
<b>At 31 December 2025</b>	<b>399,138</b>	<b>42,475</b>	<b>117,724</b>	<b>67,804</b>	<b>627,141</b>
<b>2024</b>					
Borrowings	409,796	101,252	110,517	97,038	718,603
Lease liabilities	5,353	2,210	3,367	2,903	13,833
Trade and other payables (excluding advances)	266,213	-	-	-	266,213
<b>At 31 December 2024</b>	<b>681,362</b>	<b>103,462</b>	<b>113,884</b>	<b>99,941</b>	<b>998,649</b>

The facility amounts relating to the Group's term loans are disclosed in note 26.

**Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates, will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

## i) Currency risk

The Group is exposed to currency risk in respect of transactions denominated in currencies other than USD. In respect of transactions denominated in the UAE Dirham ("AED"), the Group is currently not exposed to currency risk as the AED is pegged to USD. There are no significant transactions denominated in currency other than USD and AED.

The Group is also exposed to currency risk in respect of its investment in its Brazilian associate. The Group regularly monitors the movement in exchange rates to assess the sensitivity and impact to its long term business plan.

## ii) Interest rate risk

The Group adopts a policy of ensuring that its exposure to changes in interest rates on borrowings is on a fixed rate basis. This is achieved by entering into interest rate swaps. Short-term deposits earn fixed rates of interest.

**Interest rate sensitivity**

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings affected, after the impact of hedge accounting.

The Group's profit (loss) before tax for the year is affected through the impact on floating rate borrowings as follows. Amounts shown represent impact on profit or loss if the market risk variables had been different at the end of the reporting period with all other variables held constant and has been computed on the basis of assumptions and indices used and considered by other market participants.

**Space42 PLC****Notes to the consolidated financial statements**

for the year ended 31 December 2025

**35 Financial risk management (continued)****Interest rate sensitivity (continued)**

	2025 \$ 000	2024 \$ 000
Interest expense		
- 25 basis points	76	100
+ 25 basis points	(76)	(100)

**Fair values****Derivatives**

The fair value of interest rate swaps is based on broker quotes, which are tested for reasonableness by discounting estimated future cash flows based on the terms and maturity of each contract and using market interest rates for a similar instrument at the measurement date. Derivatives fall into Level 2 of the fair value hierarchy.

**Non-derivative financial liabilities**

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date (Level 2 of fair value hierarchy).

The fair values of borrowings and other financial assets and financial liabilities approximate their carrying values.

There were no transfers between Level 1, Level 2 and Level 3 during 2025 and 2024.

**Capital management**

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

The Group manages capital using a gearing ratio, which is net debt divided by total equity plus net debt. The Group's policy is to keep the gearing ratio within a range to meet the business needs of the Group. The Group includes within net debt, interest bearing borrowings and cash and short-term deposits. Capital includes share capital, reserves and retained earnings.

	Notes	2025 \$ 000	2024 \$ 000
Interest bearing borrowings (excluding unamortised transaction costs)	26	267,690	657,360
Less: cash and short-term deposits	23	(995,017)	(1,162,610)
Net cash		(727,327)	(505,250)
Total equity		1,780,851	1,873,455
<b>Total equity and net debt</b>		<b>1,053,524</b>	<b>1,368,205</b>
Gearing ratio (%)		N/A	N/A

Since the Group has net cash position as at the end of the current and prior reporting periods, gearing ratio has not been calculated.

**36 Business combinations and changes in ownership interests**

This note provides information on changes to the group structure in the current and previous years and the material accounting policies followed by the Group.

**Material accounting policy information****Business combinations**

Business combinations are accounted for using the acquisition method when the acquired set of activities and assets meets the definition of a business and control is transferred to the Group. In determining whether a particular set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive process and whether the acquired set has the ability to produce outputs. The Group has an option to apply a 'concentration test' that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The optional concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets.

The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in other operating expenses.

**Space42 PLC****Notes to the consolidated financial statements**

for the year ended 31 December 2025

**36 Business combinations and changes in ownership interests (continued)****Material accounting policy information (continued)****Business combinations (continued)**

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree. Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IFRS 9 Financial Instruments is measured at fair value with the changes in fair value recognised in the consolidated statement of profit or loss.

Non-controlling interests in subsidiaries are identified separately from the Group's equity therein. Those interests of non-controlling shareholders that are present ownership interests entitling their holders to a proportionate share of net assets upon liquidation may initially be measured at fair value or at the non-controlling interest's proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement is made on an acquisition-by-acquisition basis. Other non-controlling interests are initially measured at fair value. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interest's share of subsequent changes in equity.

Goodwill is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests and any previous interest held over the net identifiable assets acquired and liabilities assumed). If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in consolidated statement of profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. Where goodwill has been allocated to a cash-generating unit (CGU) and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

A contingent liability recognized in a business combination is initially measured at its fair value. Subsequently, it is measured at the higher of the amount that would be recognized in accordance with the requirements for provisions in IAS 37 Provisions, Contingent Liabilities and Contingent Assets or the amount initially recognized less (when appropriate) cumulative amortisation recognized in accordance with the requirements for revenue recognition.

**Discontinued operation**

A disposal group qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- a) Represents a separate major line of business or geographical area of operations
- b) Is part of a single coordinated plan to dispose of a separate major line of business or geographical area of operations, or
- c) Is a subsidiary acquired exclusively with a view to resale

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the consolidated statement of comprehensive income. When an operation is classified as a discontinued operation, the comparative statement of profit or loss and OCI is re-presented as if the operation had been discontinued from the start of the comparative year.

**Dilution of interest without a loss of control during the year:**

During 2022, the Group entered into a shareholder agreement with another shareholder ("JV Partner") to incorporate a company ("Joint venture" or "JV") to establish a business in respect of the research and development, manufacture, sales (and other required or agreed operations) of products in the high-altitude pseudo satellite ("HAPS") business in the UAE and other territories. It was agreed that the Group will hold 53% ownership interest in the JV while the JV partner will hold 47% ownership interest.

During 2023, the JV was incorporated under the name of Mira Aerospace Ltd ("Mira") by issuing 1,000 shares with 100% ownership by the Group. On 1 July 2025, the Group completed the transfer of its 47% ownership interest in Mira, to the JV partner in accordance with the terms and conditions of the shareholder agreement. The transfer was made for nil consideration. Based on management's assessment of the Board composition and rights conferred by the amended shareholder agreement, the transfer did not result in a loss of control by the Group, hence was accounted for as an equity transaction. The carrying amount of Mira's net assets in the Group's consolidated financial statements on the date of the transfer was \$17,502 thousand of which \$8,226 thousand, representing 47% ownership interest, was recognised as an adjustment between retained earnings and non-controlling interests as a dilution of interest in a subsidiary.

**Space42 PLC****Notes to the consolidated financial statements**

for the year ended 31 December 2025

**36 Business combinations and changes in ownership interests (continued)****Merger with AI Yah Satellite Communications Company PJSC (Yahsat) during the prior year:**

On 1 October 2024, the Company and Yahsat, a global satellite operator, merged to create Space 42, a UAE-based AI-powered SpaceTech company with a global reach, integrating satellite communications, geospatial analytics, and artificial intelligence capabilities.

On the date of the merger, Yahsat was dissolved and its shares de-listed from Abu Dhabi Securities Exchange (ADX). All assets and liabilities of Yahsat were transferred to the Company in exchange for newly issued shares of the Company, which were allocated to former Yahsat shareholders at a ratio of 0.897821 new shares in the Company for every one Yahsat share. Following the merger, the legal name of the Company was changed from Bayanat AI PLC to Space42 PLC.

The acquisition of Yahsat's assets and liabilities qualifies as a business combination in accordance with IFRS 3 Business Combinations. The Group has elected to measure the non-controlling interests in the acquiree at their proportionate share of the acquired net identifiable assets. The fair values of the identifiable assets and liabilities of Yahsat, based on the purchase price allocation exercise, as at the date of acquisition were:

	Notes	Fair value recognised on acquisition \$ 000
<b>Assets</b>		
Property, plant and equipment	13	1,258,141
Right-of-use assets	14	6,787
Intangible assets	15	525,312
Equity-accounted investments	17	34,893
Other financial assets	18	2,146
Deferred income tax assets	12	233
Inventories		30,605
Contract costs		2,378
Trade and other receivables (net of allowance for ECL of \$19,294 thousand)		123,692
Contract assets		23,793
Derivative financial instruments		27,603
Income tax assets		182
Cash and short-term deposits		594,359
Non-current assets classified as held for sale		28,390
		<b>2,658,514</b>
<b>Liabilities</b>		
Trade and other payables		477,752
Contract liabilities		166,637
Borrowings	26	662,814
Lease liabilities	14	7,149

Deferred income tax liabilities	12	45,636
		<b>1,379,422</b>
Total identifiable net assets at fair value		<b>1,279,092</b>
Less: Non-controlling interests		(32,842)
Goodwill arising on acquisition	15	173,310
Purchase consideration transferred		<b>1,419,560</b>

**Space42 PLC****Notes to the consolidated financial statements**

for the year ended 31 December 2025

**36 Business combinations and changes in ownership interests (continued)****Merger with Al Yah Satellite Communications Company PJSC (Yahsat) (continued):**

The goodwill of \$173,310 thousand is attributed to the expected synergies arising from the acquisition. Goodwill has been allocated to the Group's Infrastructure and Managed solutions CGUs (see note 15 for details). None of the goodwill is expected to be deductible for income tax purposes.

The Company issued 2,190,476,979 ordinary shares as consideration for the acquisition of assets and liabilities of Yahsat. The fair value of the shares is calculated with reference to the quoted price of the shares of the Company at the date of acquisition, which was AED 2.38 per share (\$0.65 per share). The fair value of the consideration given was therefore \$1,419,560 thousand (AED 5,213,335 thousand).

From the date of acquisition, the acquired business contributed \$126,948 thousand of revenue and \$50,376 thousand to profit before tax of the Group for the year ended 31 December 2024. If the business combination had taken place at the beginning of the year, consolidated pro forma revenue and profit before tax of the Group for the year ended 31 December 2024 would have been \$629,255 thousand and \$175,319 thousand respectively.

**Analysis of cash inflows on acquisition:**

	<b>2024</b>
	<b>\$ 000</b>
Cash and short-term deposits acquired	594,359
Less: Short-term deposits with original maturities of over three months	(347,463)
Net cash and cash equivalents acquired (included in cash flows from investing activities)	<b>246,896</b>

**37 Changes in presentation of comparatives**

Certain items of the consolidated statement of financial position have been reclassified to conform to the current year presentation in accordance with IAS 1.

	<b>31 December 2024</b>		
	<b>As previously reported</b>	<b>Reclassification</b>	<b>As presented</b>
	<b>\$ 000</b>	<b>\$ 000</b>	<b>\$ 000</b>

<b>Total non-current liabilities</b>	<b>1,192,665</b>	<b>-</b>	<b>1,192,665</b>

## Space42 PLC

### Supplemental information to the consolidated financial statements

for the year ended 31 December 2025

The consolidated financial statements are presented in United States Dollars ("USD" or "\$"), the functional currency of the Company and the presentation currency of the Group. The following selected supplemental information is presented in United Arab Emirates Dirhams (AED) solely for convenience. AED amounts have been translated at the rate of AED 3.6725 to USD 1, except for share capital and additional paid-in capital which are translated using historical rates. For the purpose of this translation, numbers have been rounded where necessary.

**SPACE42 PLC****Board of Directors' Report**

31 December 2025

The Directors have pleasure in presenting their report, together with the audited separate financial statements of Space42 PLC (the "Company") for the year ended 31 December 2025.

**Principal activities**

Space42 is a UAE-based AI-powered SpaceTech group that seamlessly integrates satellite communications, geospatial insights, and artificial intelligence capabilities for customers globally. Space42's business units, Space Services (SPA) and Smart Solutions (SOL), offer a diversified range of use cases.

- 1) Space Services (SPA): The Space Services business provides robust, secure satellite communication solutions for government and mission-critical applications; reliable mobility and communication solutions; and high-speed data connectivity solutions.
- 2) Smart Solutions (SOL): The Smart Solutions business provides earth observation, geospatial solutions and industry-specific solutions using Space42's AI-driven multi-intelligence platform, GIQ, which integrates data from space and ground assets to assist with decision-making, enhance situational awareness, and improve operational efficiency.

**Results for the year**

For the year ended 31 December 2025, the Company reported revenue of \$115,920 thousand (2024: \$26,475 thousand) and a loss for the year of \$1,576 thousand (2024: profit for the year of \$4,761 thousand).

**Transactions with subsidiaries and other related parties**

Transactions with subsidiaries and other related parties are carried out as part of our normal course of business and in compliance with applicable laws and regulations. Related party transactions are disclosed in note 14 of the separate financial statements.

**Directors**

H.E. Mansoor Al Mansoori	Chairman
Dr. Bakheet Al Katheeri	Vice Chairman
H.E. Tareq Abdul Raheem Al Hosani	Member
H.E. Maryam Eid Khamis AlMheiri	Member
Karim Michel Sabbagh	Managing Director
Ismail Ali Abdulla	Member
Kiril Evtimov	Member

So far as the Directors are aware, there is no relevant audit information of which the Company's auditor is unaware and they have taken all the steps that they ought to have taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

**Independent Auditors**

Deloitte & Touche (M.E.) LLP, were appointed as the external auditors ("auditors") for the financial year 2025, by the shareholders in the General Assembly on 9 April 2025.

## **INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF SPACE42 PLC**

### **REPORT ON THE AUDIT OF THE SEPARATE FINANCIAL STATEMENTS**

#### **Opinion**

We have audited the separate financial statements of Space42 PLC (the “Company”) which comprise the separate statement of financial position as at 31 December 2025, and the separate statement of profit or loss, separate statement of other comprehensive income, separate statement of changes in equity and separate statement of cash flows for the year then ended, and notes to the separate financial statements, including material accounting policy information.

In our opinion, the accompanying separate financial statements present fairly, in all material respects, the separate financial position of the Company as at 31 December 2025, and its separate financial performance and its separate cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB).

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Separate Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants’ International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) as applicable to audit of separate financial statements of public interest entities together with the other ethical requirements that are relevant to our audit of the separate financial statements of public interest entities in the Abu Dhabi Global Market (ADGM), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matter**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the separate financial statements of the current year. These matters were addressed in the context of our audit of the separate financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

**INDEPENDENT AUDITOR’S REPORT  
TO THE SHAREHOLDERS OF SPACE42 PLC (continued)**

**Key Audit Matter (continued)**

Key audit matter	How our audit addressed the key audit matter
<p><b>Impairment of investments in subsidiaries</b></p> <p>At 31 December 2025, the carrying value of the Company’s investments in subsidiaries amounted to USD 1.4 billion, which represents 73% of the total assets presented in the separate financial statements.</p> <p>IFRS Accounting Standards require management to consider whether there are any indicators of impairment relating to non-financial assets. If indicators of impairment are identified, management is required to determine whether the recoverable amount of an asset, which is defined as the higher of value in use and fair value less costs of disposal, exceeds its carrying amount. An impairment charge, which represents the difference between the recoverable amount and the carrying amount, is recognised in profit or loss when the recoverable amount is lower than the carrying amount. No impairment charge was recognized during the year.</p> <p>Management identified impairment indicators in the Smart Solutions cash-generating unit (CGU) based on the losses reported by a key subsidiary that belongs to the CGU. Accordingly, management determined if the recoverable amount of this investment was more than its carrying amount. The recoverable amount was calculated based on its estimated fair value less costs of disposal, calculated by discounting its projected cash flows from approved business plan.</p> <p>The recoverable amount of Smart Solutions exceeded the carrying value as of 31 December 2025, indicating the investment is not impaired.</p> <p>The determination of the recoverable amount requires management to apply significant judgments and make significant estimates. These include, inter alia, the following:</p> <ul style="list-style-type: none"> <li>- estimated future cash flows, including anticipated contracts with customers;</li> <li>- discount rate; and</li> <li>- growth rate.</li> </ul> <p>We determined the impairment of investments in subsidiaries as a key audit matter given the quantitative significance of these investments in subsidiaries, the significant level of estimation and judgments involved in assessing its recoverability and the level of audit effort required.</p> <p>Refer to note 3 for the critical accounting judgement and disclosure related to this matter.</p>	<p>We performed the following audit procedures, inter alia, to address the key audit matter:</p> <ul style="list-style-type: none"> <li>• Obtained an understanding of the process adopted by management to determine the recoverable amount of the investments in subsidiaries, including the key controls in this process.</li> <li>• Assessed the abovementioned controls to determine if they had been appropriately designed and implemented;</li> <li>• Evaluated the principles and methods used for determining the recoverable amount of the Smart Solutions CGU and assessed if the methods used are in accordance with requirements of IFRS Accounting Standards;</li> <li>• Performed an independent assessment against external market data of the key inputs used by management to determine the discount rate, for example the risk-free rate, country and market risk premium and inflation rate.</li> <li>• Agreed future cash flows in the determination of the recoverable amount to approved business plan.</li> <li>• Reviewed the sensitivity analyses on the significant assumptions to evaluate the extent of their impact on the determination of the recoverable amount.</li> <li>• Reperformed the mathematical accuracy of the valuation performed by management; and</li> <li>• Assessed the disclosures in the separate financial statements relating to this matter against the requirements of IFRS Accounting Standards.</li> </ul>

## INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF SPACE42 PLC (continued)

### Other Information

Management is responsible for the other information. The other information comprises the Board of Directors' report which we obtained prior to the date of this auditor's report. The other information does not include the separate financial statements and our auditor's report thereon.

Our opinion on the separate financial statements does not cover the other information, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the separate financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the separate financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of Management and Those Charged with Governance for the Separate Financial Statements

Management is responsible for the preparation and fair presentation of the separate financial statements in accordance with IFRS Accounting Standards as issued by the IASB and the applicable provisions of the Articles of Association of the Company and ADGM Companies Regulations 2020 (as amended), Companies Regulations (International Accounting Standards) Rules 2015 and ADGM Financial Services Regulatory Authority Market Rules, and for such internal control as management determines is necessary to enable the preparation of separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the separate financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Separate Financial Statements

Our objectives are to obtain reasonable assurance about whether the separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or taken together, they could reasonably be expected to influence the economic decisions of users taken based on these separate financial statements.

**INDEPENDENT AUDITOR'S REPORT  
TO THE SHAREHOLDERS OF SPACE42 PLC (continued)**

**Auditor's Responsibilities for the Audit of the Separate Financial Statements (continued)**

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than the one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for expressing an opinion on the effectiveness of the internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the separate financial statements, including the disclosures, and whether the separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the separate financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF SPACE42 PLC (continued)

### REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

As required by the provisions of the ADGM Companies Regulations 2020 (as amended), Companies Regulations (International Accounting Standards) Rules 2015 and ADGM Financial Services Regulatory Authority Market Rules ("Rules and Regulations"), we report that:

- the separate financial statements of the Company have been prepared, in all material respects, in accordance with the requirements of the said Rules and Regulations;
- the information given in the Board of Directors' report is consistent with the Company's separate financial statements for the year ended 31 December 2025;
- adequate accounting records have been kept by the Company; and
- the Company's separate financial statements are in agreement with the accounting records of the Company.

## SPACE42 PLC

### Notes to the separate financial statements

for the year ended 31 December 2025

#### 1 Corporate information

Space42 PLC (the "Company") is registered in Abu Dhabi Global Market (ADGM) under license number 000008474 as a Public Company Limited by Shares. The Company was incorporated on 28 September 2022 (the "inception"). The registered address of the Company is Al Sarab Tower, ADGM Square, Al Maryah Island, Abu Dhabi, United Arab Emirates. The Company's ordinary shares are listed on the Abu Dhabi Stock Exchange (ADX).

The Company's parent company and controlling party is Group 42 Holding Ltd (the "Parent Company"), a private company registered in Abu Dhabi Global Market and the Ultimate Parent Entity is Fount Trust.

On 1 October 2024, the Company and Al Yah Satellite Communications Company PJSC (Yahsat), a global satellite operator, merged to create Space42, a UAE-based AI-powered SpaceTech company with a global reach, integrating satellite communications, geospatial analytics, and artificial intelligence capabilities. On this date, Yahsat was dissolved and its shares delisted from Abu Dhabi Securities Exchange (ADX). Its assets and liabilities were transferred to the Company in exchange for newly issued shares. Following the merger, the legal name of the Company was changed from Bayanat AI PLC to Space42 PLC (notes 19 and 22).

Prior to the merger, the Company's principal activity was to hold its investments in its subsidiaries. Subsequent to the merger, the Company's activities also include the provision of satellite capacity services to other group entities.

Details of the Company's subsidiaries are set out in Note 13.

#### 2 Material accounting policy information

##### 2.1 Basis of preparation

###### Statement of compliance

These separate financial statements have been prepared in accordance with IFRS Standards as issued by the International Accounting Standards Board (IASB) and comply where appropriate, with the Articles of Association and applicable requirements of Abu Dhabi Global Market ("ADGM") Companies Regulations 2020 (as amended), Companies Regulations (International Accounting Standards) Rules 2015 and ADGM Financial Services Regulatory Authority Market Rules. These financial statements represent the separate financial statements of the Company prepared in accordance with International Accounting Standard ("IAS") 27 Separate Financial Statements in which investments in subsidiaries are accounted for at cost. The Company has issued consolidated financial statements for the year ended 31 December 2025 on 25 February 2026.

###### Basis of measurement

These separate financial statements have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

###### Functional and presentation currency

These separate financial statements are presented in United States Dollars ("USD" or "\$"), the functional and presentation currency of the Company. All financial information presented in USD has been rounded to the nearest thousand ("\$ 000"), unless stated otherwise.

##### 2.2 Summary of material accounting policy information

The Company has applied these accounting policies consistently to all periods presented in these separate financial statements.

#### A) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

##### (i) Non-derivative financial assets

The Company's non-derivative financial assets comprise receivables and cash and short-term deposits.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under IFRS 15.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income (FVOCI), it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. However, the Company may make an irrevocable election at initial recognition to classify its equity instruments which are not held for trading as measured at FVOCI. All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at fair value through profit or loss (FVTPL).

## SPACE42 PLC

### Notes to the separate financial statements

for the year ended 31 December 2025

#### 2 Material accounting policy information (continued)

##### 2.2 Summary of material accounting policy information (continued)

###### A) Financial instruments (continued)

###### (i) Non-derivative financial assets (continued)

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at FVOCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired. The Company's financial assets at amortised cost includes trade receivables, amounts due from related parties and other receivables.

The Company does not have financial assets carried at FVOCI.

The Company derecognises a financial asset only when the contractual rights to the cash flows of the asset expire, or it transfers the rights to receive the contractual cash flows of the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and associated liability for amounts it may have to pay.

If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Cash and cash equivalents comprise cash balances and short-term deposits with original maturities of three months or less.

###### (ii) Non-derivative financial liabilities

The Company's non-derivative financial liabilities comprise trade payables, amounts due to related parties, other payables and accruals.

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL or at amortized cost (loans and borrowings or payables), or as derivatives designated as hedging instruments, as appropriate.

Non-derivative financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method.

A financial liability is derecognised when, and only when, the obligation under the liability is discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

###### (iii) Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

###### B) Revenue from contract with customers

Refer Note 4.

###### C) Finance costs and Finance income

Refer Note 9.

###### D) Property, plant and equipment

Refer Note 11.

###### E) Intangible assets

Refer Note 12.

## SPACE42 PLC

### Notes to the separate financial statements

for the year ended 31 December 2025

#### 2 Material accounting policy information (continued)

##### 2.2 Summary of material accounting policy information (continued)

###### F) Impairment

###### Financial assets

The Company assesses on a forward-looking basis the expected credit losses associated with its debt instruments not carried at FVTPL. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

To assess whether there is a significant increase in credit risk the Company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking information including actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the counter party's ability to meet its obligations.

###### Financial assets carried at amortised cost

The Company recognizes lifetime expected credit loss (ECL) for trade receivables, using the simplified approach. The expected credit losses on these financial assets are estimated using loss rates applied against each customer segment for each revenue type to measure expected credit losses. The Company determines the loss rates based on historical credit loss experience, analysis of the debtor's current financial position adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of current and forecast direction of conditions at the reporting date, including, where appropriate, time value of money.

If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited in the separate statement of profit or loss. The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

###### Non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If such an indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired.

In order to estimate recoverable amount, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit, or CGU"). The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the assets for which the estimates of future cash flows have not been adjusted.

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss.

Impairment losses recognised on non-financial assets excluding goodwill in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised in prior years.

###### G) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

###### H) Income tax

Refer Note 10.

###### I) Government Grants

Refer Note 18.

###### J) Employee benefits

Refer Note 5.

## SPACE42 PLC

### Notes to the separate financial statements

for the year ended 31 December 2025

## 2 Material accounting policy information (continued)

### 2.2 Summary of material accounting policy information (continued)

#### K) Current vs non-current classification

The Company presents assets and liabilities in the separate statement of financial position based on current/non-current classification.

An asset is current when it is:

- expected to be realised or intended to be sold or consumed in the normal operating cycle;
- held primarily for the purpose of trading;
- expected to be realised within twelve months after the reporting period; or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when it is:

- expected to be settled in the normal operating cycle;
- held primarily for the purpose of trading;
- due to be settled within twelve months after the reporting period; or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

### 2.3 Changes in material accounting policies and disclosures

#### New and amended standards and interpretations

The Company applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2025. The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

#### Amendments to IAS 21 - Lack of exchangeability

The amendments specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The amendments did not have a material impact on the Company's separate financial statements.

### 2.4 Standards issued but not yet effective and not early adopted

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's separate financial statements are disclosed below. The Company intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

<b>New and amended standards issued but not effective and not yet adopted by the Company</b>	<b>Effective date</b>
<i>IFRS 18 Presentation and Disclosure in Financial Statements</i>	<i>1 January 2027</i>
<i>IFRS 19 Subsidiaries without Public Accountability: Disclosures</i>	<i>1 January 2027</i>
<i>Amendments to IAS 21: Translation to a Hyperinflationary Presentation Currency</i>	<i>1 January 2027</i>
<i>Amendments to IFRS 9 and IFRS 7: Contracts Referencing Nature-dependent Electricity</i>	<i>1 January 2026</i>
<i>Annual Improvements to IFRS Accounting Standards—Volume 11</i>	<i>1 January 2026</i>
<i>Amendment to IFRS 9 and IFRS 7: Classification and Measurement of Financial Instruments</i>	<i>1 January 2026</i>
<i>Amendments to IFRS 10 'Consolidated Financial Statements' and IAS 28 'Investments in Associates and Joint Ventures': Sale or contribution of assets between investor and its associate or joint venture</i>	<i>Deferred indefinitely</i>
<i>IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information and IFRS S2 Climate-related Disclosures</i>	<i>1 January 2024, subject to adoption by the local jurisdiction</i>

The Company is currently in the process of assessing the impacts of IFRS 18 on the separate financial statements.

There are no other applicable new standards and amendments to published standards or IFRIC interpretations that have been issued that would be expected to have a material impact on the separate financial statements of the Company. Except IFRS 18, the above stated new standards and amendments are not expected to have any significant impact on separate financial statements of the Company.

## SPACE42 PLC

### Notes to the separate financial statements

for the year ended 31 December 2025

#### 3 Significant accounting judgements, estimates and assumptions

The preparation of the Company's separate financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

##### Significant accounting judgements

###### Impairment of non-financial assets

At the end of each reporting period, management applies the guidance in IAS 36 Impairment of Assets to identify whether there is any objective evidence of impairment of its non-financial assets. In such instances, the assets are subject to an impairment test by comparing their carrying amounts at the balance sheet date to their recoverable amounts. The recoverable amount for an individual asset is estimated and is the higher of its fair value less costs of disposal and its value in use. If the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, the recoverable amount of the cash-generating unit (CGU) to which the asset belongs is determined. An estimate of fair value less cost of disposal or the value in use of the CGU (or asset) is made, using estimated future cash flows discounted using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (asset). The assumptions and judgements made in assessing the recoverable value include expectations of contract renewals, price increases on existing contracts and inflation rates.

During the year, the Company has identified indicators of impairment in its Smart Solutions CGU and accordingly, performed an impairment test. The recoverable amount of the CGU was based on fair value less costs of disposal, estimated using discounted cash flows using inputs to the valuation technique that fall under Level 3 of the fair value hierarchy. The recoverable amount as at 31 December 2025 has been determined using cash flow projections from the budget and business plan approved by the Board of Directors for the years 2026-2030. The cash flow projections extrapolated into perpetuity at a 3% growth rate and discounted using a discount rate of 11.7%. The recoverable amount of the CGU exceeded the carrying value significantly as of 31 December 2025, indicating the CGU is not impaired.

##### Significant accounting estimates

###### Useful lives of property, plant and equipment and intangible assets

Management assigns useful lives to property, plant, equipment, and intangible assets based on the intended use of assets and the economic lives of those assets. Subsequent change in circumstances such as technological advances or prospective utilisation of the assets concerned could result in the actual useful lives differing from initial estimates. For satellite systems, management reviews the satellite health reports including estimates of the fuel life of the satellites, in determining if any adjustments are required to the useful life. Management also considers other factors including inputs from the satellite insurance markets on total insurable life and availability of underwriters for insurance of the satellite payloads.

Management has reviewed the useful lives of major items of property, plant and equipment and intangible assets and determined that current year estimates do not differ from previous estimates.

###### Impairment losses on receivables

The Company reviews its receivables to assess impairment on a regular basis. In determining whether impairment losses should be recorded in the separate statement of profit or loss and separate statement of comprehensive income, the Company applies the simplified approach permitted by IFRS 9, which requires expected lifetime credit losses (ECL) to be recognised from initial recognition of the receivables. An impairment analysis is performed at each reporting date using loss rates applied against each customer segment and if necessary, at an individual contract level, to measure expected credit losses. The provision rates are based on historical patterns of default for groupings of various customer segments with similar loss patterns (i.e. age profile and where required, contract specific considerations). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions.

As at 31 December 2025, no impairment loss is recognised in the separate financial statements (2024: Nil).

## SPACE42 PLC

### Notes to the separate financial statements

for the year ended 31 December 2025

#### 4 Revenue

##### Material accounting policy information

The Company is in the business of leasing of satellite communication capacity and providing telecommunication services via satellite to customers. Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated (e.g., discount). In determining the transaction price for the sale of goods or rendering of services, the Company considers the effects of variable consideration, the existence of significant financing components, non-cash consideration, and consideration payable to the customer (if any).

When the Company satisfies a performance obligation by delivering the promised goods or services it creates a contract-based asset on the amount of consideration earned by the performance.

Where the amount of consideration received from a customer exceeds the amount of revenue recognised this gives rise to a contract liability. The Company classifies its contract assets and liabilities as current and non-current based on the timing and pattern of flow of economic benefits.

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue and costs, if applicable, can be measured reliably.

Revenue	Notes	2025 \$ 000	2024 \$ 000
Revenue from services rendered to related parties - over time	14	115,920	26,475
Revenue recognised from contract liabilities at the beginning of the year	14	94,787	-

The amount of remaining performance obligations from contracts with customers is disclosed in Note 14 a).

Contract balances	31 December		1 January
	2025 \$ 000	2024 \$ 000	2024 \$ 000
Contract liabilities (Deferred revenue)	285,057	379,844	-

##### Segment information:

The Company's revenue is generated entirely from its Space Services segment. The Space Services segment provides operating and capacity leasing services in relation to satellites to other group entities. Below is the segment information for the year:

	Space Services \$ 000	Smart Solutions \$ 000	Total \$ 000
<b>2025</b>			
Revenue	115,920	-	115,920
Adjusted EBITDA	112,111	(24,237)	87,874
Profit (loss) for the year	5,221	(6,797)	(1,576)
<b>2024</b>			
Revenue	26,475	-	26,475
Adjusted EBITDA	24,219	(2,157)	22,062
Profit for the year	1,440	3,321	4,761

All of the Company's revenue for both current and prior years were generated in the United Arab Emirates.

## SPACE42 PLC

### Notes to the separate financial statements

for the year ended 31 December 2025

#### 5 Staff costs

##### Material accounting policy information

##### Employee benefits

An accrual is made for the estimated liability for employees' entitlement to annual leave and leave passage as a result of services rendered by eligible employees up to the end of the year.

The Company operates unfunded defined benefit plan. Provision for employees' end of service benefits for non-UAE nationals is made in accordance with the Projected Unit Cost method as per IAS 19 Employee Benefits taking into consideration the UAE Labour Laws and ADGM Employment Regulations 2019. The provision is recognised based on the present value of the defined benefit obligations. The calculation of the present value of the defined benefit obligation is performed annually by a qualified actuary using assumptions on the average annual rate of increase in salaries, average period of employment of non-UAE nationals and an appropriate discount rate. The assumptions used are calculated on a consistent basis for each period and reflect management's best estimate. The discount rates are set in line with the best available estimate of market yields currently available at the reporting date with reference to high quality corporate bonds or other basis, if applicable.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognised immediately in other comprehensive income. The Company determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss. Remeasurements are not reclassified to profit or loss in subsequent periods.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs. When there is a plan amendment, curtailment or settlement occurs during the annual reporting period, the Company determines the current service cost for the remainder of the period after the plan amendment, curtailment or settlement, using the actuarial assumptions used to remeasure the net defined benefit liability reflecting the benefits offered under the plan after that event. The Company also determines the net interest for the remainder of the period after the plan amendment, curtailment or settlement using the net defined benefit liability reflecting the benefits offered under the plan after that event, and the discount rate used to remeasure that net defined benefit liability.

The accrual relating to annual leave and leave passage is disclosed as a current liability, while the provision relating to end of service benefit is disclosed as a non-current liability.

Pension contributions, a defined contribution plan, are made in respect of UAE national employees to the UAE General Pension and Social Security Authority in accordance with the UAE Federal Law No. (2), 2000 for Pension and Social Security. Such contributions are charged to the profit or loss during the employees' period of service.

The Company had two employees during the year ended 31 December 2025 (31 December 2024: one employee).

Staff costs includes employee costs and outsourced staff costs.

## SPACE42 PLC

## SPACE42 PLC

### Notes to the separate financial statements

for the year ended 31 December 2025

#### 10 Income tax

##### Material accounting policy information

The tax expense / benefit for the year comprise current and deferred tax.

The current income tax is calculated on the basis of the tax laws enacted at the end of the reporting period in the UAE.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the separate financial statements. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Also deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill in a business combination. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted in the UAE by the end of the reporting period and are expected to apply when the related deferred income tax liability is settled or the deferred income tax asset is realised. A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profits will be available, against which the temporary differences can be utilised.

Deferred income tax assets and liabilities offset when:

- a legally enforceable right exists to offset current income tax assets against current income tax liabilities
- the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

##### UAE Corporate Tax

On 9 December 2022, the UAE Ministry of Finance released Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses ("UAE Corporate Tax Law" or "Law"). The Law became effective on 25 October 2022, and applies to taxable persons for financial years commencing on or after 1 June 2023. The UAE Cabinet of Ministers Decision No. 116/2022, which came into effect in January 2023, confirmed that AED 375,000 is the threshold of income over which the 9% tax rate would apply. Accordingly, the Company's first tax year commenced on 1 January 2024 and the standard corporate tax rate of 9% is applicable.

As required by IAS 12 Income Taxes, the Company assessed deferred tax implications in its separate financial statements and recorded deferred tax assets arising on taxable temporary differences.

The income tax expense for the years ended 31 December 2025 and 2024 is as follows:

	<b>2025</b>	<b>2024</b>
	<b>\$ 000</b>	<b>\$ 000</b>
Current income tax reported in the separate statement of profit or loss	524	461
<b>Income tax expense reported in the separate statement of profit or loss</b>	<b>524</b>	<b>461</b>

The total income tax recognised in profit or loss for the year can be reconciled to the profit (loss) as follows:

	<b>2025</b>	<b>2024</b>
	<b>\$ 000</b>	<b>\$ 000</b>
Accounting profit (loss) before income tax for the year	(1,052)	5,222
UAE Corporate Income tax at 9% (2024: 9%)	-	461
Tax effects of other non-deductible / non-taxable items	328	-
Changes in estimates related to prior years	196	-
<b>Income tax expense reported in the separate statement of profit or loss</b>	<b>524</b>	<b>461</b>

## SPACE42 PLC

### Notes to the separate financial statements

for the year ended 31 December 2025

#### 10 Income tax (continued)

##### UAE Corporate Tax (continued)

The Company is part of a tax group under the UAE Corporate Tax Law. This tax group is collectively represented by the Company, who is responsible for filing and settling the corporate tax liabilities in behalf of all member companies within the tax group.

The Company is tasked with filing the corporate tax return for the tax group, paying the corporate taxes due for the tax group, and ensuring compliance with all provisions of the UAE Corporate Tax Law applicable to the tax group.

Deferred tax assets mainly relate to unutilised tax losses. The tax group has unutilised tax losses of \$43,040 thousand (net of taxable profit for the year of \$3,648 thousand of the Company) that are expected to be utilised in future years against taxable income of the tax group. Hence, deferred tax assets of \$3,874 thousand (net of current tax liability of the Company for the year amounting to \$328 thousand) has been recognised as at 31 December 2025 as follows:

- a) receivables from subsidiaries of \$11,137 thousand;
- b) contributions to subsidiaries of \$3,829 thousand; and
- c) payable to subsidiaries of \$19,168 thousand (offset against receivables from subsidiaries).

For the year ended 31 December 2024, the income tax liabilities of \$16,998 thousand were recognised from the subsidiaries in the tax group, out of which \$10,472 thousand was recorded against receivables (note 15) and \$6,526 thousand against contribution to subsidiaries (note 13) .

##### Global Minimum Tax

In an effort to end tax avoidance and to address concerns regarding the erosion of the global corporate tax base, a global framework for corporate taxation has been formed by the OECD/G20 Inclusive Framework and is supported by over 135 jurisdictions. The goal of the framework is to reduce the shifting of profit from one jurisdiction to another, in order to reduce global tax obligations in corporate structures and introduce a minimum 15% tax rate by jurisdiction ("Pillar Two").

On 9 December 2024, the UAE Ministry of Finance has announced a 15% Domestic Minimum Top-up Tax (DMTT) for multinational enterprises (MNE) with global revenues of Euro 750 million at the ultimate parent level, aligning with the OECD Pillar Two framework. During the period, the UAE Cabinet resolution no. 142 of 2024 (the "resolution") concerning 'Imposition of UAE Qualified Domestic Minimum Top-up Taxes ("QDMTT") on Multinational Enterprises (MNE)' was issued which is effective from 1 January 2025. The resolution accompanies detailed provisions, rules and procedures on the QDMTT.

The Company will be subject to QDMTT since the global revenues of the Company's ultimate parent entity cross the minimum threshold of EUR 750 million and therefore meet the definition of constituent entities that are member of an MNE Group defined under the resolution. As a result of the Company's assessment of the applicable requirements of the resolution, no QDMTT was recognised in the separate profit or loss during the year ended 31 December 2025.

The Company has applied the temporary exception issued by the IASB in May 2023 from the accounting requirements for deferred taxes in IAS 12. Accordingly, the Group neither recognises nor discloses information about deferred tax assets and liabilities related to Pillar Two income taxes.

**SPACE42 PLC****Notes to the separate financial statements**

for the year ended 31 December 2025

**11 Property, plant and equipment****Material accounting policy information****Recognition and measurement**

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition or construction of the asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment. The Company capitalises all costs relating to assets as capital work in progress, until the date of completion and commissioning of these assets. These costs are transferred from capital work in progress to the appropriate asset category upon completion and commissioning and depreciated over their useful economic lives from the date of such completion and commissioning.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The gains or loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognised net within other income / other expenses in profit or loss.

The cost of replacing a component of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of day to day servicing of property, plant and equipment are recognised in profit or loss as incurred.

**Depreciation**

Depreciation is calculated over the depreciable amount, which is the cost of an asset, less its residual value.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Land is not depreciated. Depreciation methods, useful lives and residual values are reviewed at the financial year-end and adjusted if appropriate.

The estimated useful lives used in both the current and comparative periods are as follows:

<b>Asset category</b>	<b>Years</b>
Buildings	15-40
Satellite systems	5-18
Plant and machinery	10-20
Equipment, vehicles and fixtures	
Furniture and fixtures	3-4
Land and building improvements	3-10
Office equipment and vehicles	3-5
Computers and software	3

Equipment, vehicles and fixtures include office equipment, computers, vehicles, furniture and fixtures and land and building improvements.

Capital work in progress as of the end of the reporting period mainly relates to satellite systems ground segment under development.

**SPACE42 PLC****Notes to the separate financial statements**

for the year ended 31 December 2025

**12 Intangible assets****Material accounting policy information**

Software and other intangible assets that are acquired by the Company and which have finite useful lives are measured at cost less accumulated amortisation and accumulated impairment losses, if any. Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised. Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognised in profit or loss.

The estimated useful lives for current and comparative periods are as follows:

<b>Asset category</b>	<b>Years</b>		
Software (including operation and billing support systems)	2-10		

	<b>Software</b>	<b>Total</b>

**Space42 PLC****Notes to the separate financial statements**

for the year ended 31 December 2025

**13 Investments in subsidiaries****Material accounting policy information**

Subsidiaries are entities controlled by the Company. Control exists when the Company is exposed, or has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. In assessing control, potential voting rights of an entity that are presently exercisable are taken into account.

Details of the Company's direct subsidiaries are set out below:

<b>Name</b>	<b>Principal activities</b>	<b>Country</b>	<b>Equity % 2025</b>	<b>Equity % 2024</b>
BAYANAT GIQ - P.S.C - O.P.C (formerly Bayanat GIQ PJSC) (Bayanat GIQ)	Geospatial analytics, BPO and smart mobility solutions utilizing artificial intelligence.	UAE	100%	100%
Mira Aerospace Ltd (Mira Aerospace)*	Unmanned aerial vehicle (drone) services and research and experimental development on natural sciences and engineering	UAE	53%	100%
Bayanat Investments Ltd (Bayanat Investments)	Proprietary investment (Dormant)	UAE	100%	100%
Al Yah Advanced Satellite Communication Services PJSC (Al Yah Advanced)	Leasing of satellite communication capacity	UAE	100%	100%
Star Satellite Communications Company PJSC (Star)	Telecommunication services via Satellite and integrated satellite communication and managed services	UAE	100%	100%
Yahsat Treasury Sole Proprietorship LLC (Yahsat Treasury)	Treasury activities	UAE	100%	100%

**\* Loss on partial disposal of a subsidiary**

During 2022, the Company entered into a shareholder agreement with another shareholder ("JV Partner") to incorporate a company ("Joint venture" or "JV") to establish a business in respect of the research and development, manufacture, sales (and other required or agreed operations) of products in the high-altitude pseudo satellite ("HAPS") business in the UAE and other territories. It was agreed that the Company will hold 53% ownership interest in the JV while the JV partner will hold 47% ownership interest.

During 2023, the JV was incorporated under the name of Mira Aerospace Ltd ("Mira") by issuing 1,000 shares with 100% ownership by the Company. On 1 July 2025, the Company completed the transfer of its 47% ownership interest in Mira, to the JV partner in accordance with the terms and conditions of the shareholder agreement. The transfer was made for nil consideration. Based on management's assessment of the Board composition and rights conferred by the amended shareholder agreement, the transfer did not result in a loss of control by the Company. The transfer resulted to a loss on partial disposal of its subsidiary of \$4,700 thousand in the separate statement of profit or loss (Note 7). Following the transfer, the Company continues to retain control over the subsidiary.

Investments in subsidiaries are carried in the separate statement of financial position as follows:

	<b>Note</b>	<b>2025 \$ 000</b>	<b>2024 \$ 000</b>
Investment in subsidiaries' shares		715,136	715,136
Contributions to subsidiaries *	14	718,531	737,691
		<b>1,433,667</b>	<b>1,452,827</b>

\* Contributions to subsidiaries relate to interest free contributions to the Company's subsidiaries. Refer to note 14 d) for more details.

Investments in subsidiaries' shares are as follows:

	<b>2025 \$ 000</b>	<b>2024 \$ 000</b>
Bayanat GIQ	54,459	54,459
Mira Aerospace	1	1
Bayanat Investments	1	1
Al Yah Advanced	364,982	364,982
Star	276,412	276,412

	<b>715,136</b>	<b>715,136</b>

**Space42 PLC****Notes to the separate financial statements**

for the year ended 31 December 2025

**14 Related party transactions and balances****Identity of related parties**

The Company, in the ordinary course of business, enters into transactions, at agreed terms and conditions, with subsidiaries in the Group and other business enterprises or individuals that fall within the definition of related party contained in International Accounting Standard 24 Related Party Disclosures.

The Company has a related party relationship with the Parent Company and business entities over which the Parent Company can exercise control or significant influence; entities which are under common control of the shareholders of the Parent Company and associates. The Company has assessed that the Government of Abu Dhabi and its entities meet the definition of related party and hence has disclosed them under 'Government entities'.

**a) Transactions with subsidiaries:****Revenue from subsidiaries**

Al Yah Advanced, one of the Company's subsidiaries, entered into a Capacity Services Agreement ("CSA") with the UAE Armed Forces in 2008. In relation to the CSA, Al Yah Advanced subcontracted its obligations to provide capacity services to the Company under the Military Capacity Lease Contract ("MCLC"). In the same way, another subsidiary, Star subcontracted its obligations to provide capacity services to its customers to the Company under the Commercial Capacity Lease Contract ("CCLC"). The consideration for such services are the share of Al Yah Advanced and Star of the satellite system capital costs and operating costs incurred by the Company in the development and operation of the satellite network as determined through the Inter Creditor Deed (ICD). Revenue from such agreements are recorded as follows:

	Notes	2025 \$ 000	2024 \$ 000
<b>(i) Satellite system capital costs</b>			
Deferred revenue on satellite system capital costs allocated to subsidiaries net of amortisation		<b>285,057</b>	<b>379,844</b>
The amortisation profile of the deferred revenue balance is as follows:

<b>Outsourced expenses, office lease rent, systems support</b>			
Entities under common control		4,120	426

**Transaction with a government entity**

The Government has allocated a plot of land (Secondary site in the emirate of Abu Dhabi) to the Company and has granted permission to the Company to construct and access a Satellite Ground Control Station on the plot. Title to the plot of land has not been transferred to the Company and accordingly the plot has not been recognized in the separate financial statements. In addition, refer to note 18 to the separate financial statements which discloses information about another plot of land (Primary site) received by the Company.

**d) Related party balances**

	Notes	2025 \$ 000	2024 \$ 000
<b>Trade and other receivables due from related parties</b>			
Subsidiaries	15	132,772	112,423
<b>Wakala and other short-term deposits with related party banks</b>			
Other related parties	16	70,991	82,877
<b>Current account balances with related party banks</b>			
Other related parties	16	9,143	25,669
<b>Trade and other payables due to related parties</b>			
Subsidiaries		3,819	1,347
Entities under common control		1,798	757
Total	17	<b>5,617</b>	<b>2,104</b>
<b>Contributions to subsidiaries</b>			
Star Satellite Communications Company PJSC (Star) *		713,231	727,691
Mira Aerospace Ltd		5,300	10,000
		<b>718,531</b>	<b>737,691</b>

\* The Company has provided interest free contributions to Star, one of its subsidiaries. Under the terms of the arrangement, there is no obligation on the subsidiary to repay the amount under any circumstances and any repayment is entirely at the discretion of the subsidiary. In addition, the terms of the agreement specify that, on dissolution of the subsidiary, the rights, benefits and obligations in the residual net assets and liabilities, attached to the loan, shall rank pari passu with those attached to the share capital of the subsidiary. Therefore, these contributions are more akin to equity instruments rather than liabilities, and accordingly are presented within equity of Star.

The movements in contributions to subsidiaries during the year include contributions repaid by Star amounting to \$18,289 thousand, deferred tax assets recognised by the Company on behalf of Star amounting to \$3,829 thousand (refer to Note 10) and transfer of its 47% ownership interest in Mira to a JV partner amounting to \$4,700 thousand (refer to Note 13). The movements in contributions to subsidiaries during the prior year include contributions acquired from Yahsat amounting to \$716,816 thousand (refer to Note 22) and further contributions made amounting to \$10,875 thousand.

**Space42 PLC****Notes to the separate financial statements**

for the year ended 31 December 2025

**15 Trade and other receivables**

	Note	2025 \$ 000	2024 \$ 000
Receivables due from related parties	14	132,772	112,423
Prepayments		1,795	1,715
Other receivables		1,172	337
<b>Total trade and other receivables</b>		<b>135,739</b>	<b>114,475</b>

The Company's exposure to credit risk is disclosed in note 21.

Receivables due from related parties include balances due from subsidiaries who are members of the same tax group in relation to income tax liabilities and deferred tax assets recognised by the Company in behalf of the tax group (refer to note 10).

**16 Cash and short-term deposits**

	Notes	2025 \$ 000	2024 \$ 000
Cash on hand		8	8
Cash at banks - related parties	14	9,143	25,669
Wakala deposits - related parties	14	70,991	82,877
<b>Cash and short-term deposits</b>		<b>80,142</b>	<b>108,554</b>

Balances with banks are assessed to have low credit risk of default since these banks are highly regulated by the UAE Central Bank. Accordingly, management of the Company have assessed that there is no impairment loss required to be recorded against balances with banks.

Wakala deposits have maturities of 3 months (2024: 2 weeks to 3 months) from the date of placement and carry profit rates ranging on average from 3.45% to 4.27% (2024: 4.0% to 5.2%). Deposits are placed on recurring basis and can be terminated anytime without prior notice and with a deduction of Wakala fee and a performance incentive from the actual realised investment profit. Income on Wakala deposits was \$2,891 thousand (2024: \$5,799 thousand).

**17 Trade and other payables**

	Note	2025 \$ 000	2024 \$ 000
Trade payables		1,682	1,840
Payables due to related parties	14	5,617	2,104
Accruals and other payables		7,133	5,089
<b>Total trade and other payables</b>		<b>14,432</b>	<b>9,033</b>

The average credit period on the purchase of goods is 30-60 days (2024: 30-60 days). The Company has financial risk management policies in place to ensure that all payables are paid within credit period.

**Space42 PLC****Notes to the separate financial statements**

for the year ended 31 December 2025

**18 Government grants****Material accounting policy information**

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with.

**Monetary government grants**

Monetary grants that compensate the Company for expenses to be incurred are initially recognised in the separate statement of financial position as a deferred liability. Subsequent to initial recognition, such grants are released to profit or loss on a systematic basis over the periods in which the related expenses are recognised.

Where monetary government grants compensate for the cost of assets, such assets are carried at cost, less the value of the monetary government grants received. Asset values so derived are depreciated over the useful life of the relevant asset.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognised in profit or loss in the period in which they become receivable.

**Non-monetary government grants**

The Company receives certain assets, primarily in the form of land, from entities related to the Government of the Emirate of Abu Dhabi, as grants to carry out its operations. When it is probable that future economic benefits will flow to the Company, such land received is recognised in the separate financial statements at nominal value.

The Company has a plot of land (Primary site) received from the Urban Planning Council, of the Government of Abu Dhabi as a government grant. The plot of land has been used to construct the Satellite Ground Control Station, which forms an integral part of the satellite system. Accordingly, the plot of land has been classified as property, plant and equipment.

**19 Share capital**

	2025 \$ 000	2024 \$ 000
<b>Issued and fully paid:</b>		
4,761,905,551 shares of \$0.027 each (AED 0.10 each)	129,664	129,664

Issue of shares	-	59,646
<b>At 31 December</b>	<b>129,664</b>	<b>129,664</b>

\* On 1 October 2024, the Company merged with Yabsat and its name was changed to Space42 Plc. Consequently, Yabsat was delisted and its assets and liabilities were transferred to the Company in exchange for the issuance of 2,190,476,979 new ordinary shares of AED 0.1 each to former Yabsat shareholders (note 1 and note 22) resulting into share premium of \$1,359,914 thousand. As at 31 December 2025, the Company's share premium amounts to \$1,514,253 thousand (2024: \$1,514,253 thousand).

On 13 October 2022, pursuant to the public offering, the share capital of the Company was increased to \$70,018 thousand (AED 257,143 thousand divided into 2,571,428,572 shares of AED 0.1 each), with 571,428,572 shares being offered for public subscription. The Company's offer price was set at AED 1.1 per share and was fully subscribed, resulting into share premium of \$154,339 thousand (AED 571,429 thousand). Share issue costs amounted to \$1,258 thousand (AED 4,620 thousand).

**21 Financial risk management****Overview**

The Company has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout these separate financial statements.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework and is responsible for developing and monitoring the Company's risk management policies.

**Credit risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables and cash held at bank.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	<b>Notes</b>	<b>2025</b>	<b>2024</b>
		<b>\$ 000</b>	<b>\$ 000</b>
Receivables due from related parties	15	132,772	112,423
Other receivables	15	1,172	337
Cash and short-term deposits	16	80,142	108,554
		<b>214,086</b>	<b>221,314</b>

**Receivables and bank balances**

Customer credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. New customers are analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. Outstanding customer receivables and contract assets are regularly monitored.

An impairment analysis is performed at each reporting date considering reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. No provision for expected credit losses was recognised as of 31 December 2025 and 2024.

The Company considers the risk of concentration as low with respect to receivables since these are with related parties. With respect to cash and short-term deposits, management manages its credit risk by only dealing with reputable banks.

**Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company ensures that it has sufficient cash and liquid assets on demand to meet its operational and capital expenses. This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

**Space42 PLC****Notes to the separate financial statements**

for the year ended 31 December 2025

**21 Financial risk management (continued)****Liquidity risk (continued)**

Summarised below in the table is the maturity profile of financial liabilities based on the remaining period at the end of reporting period to the contractual maturity date. The amounts disclosed are the contractual undiscounted cash flows.

	Within one year \$ 000	1 - 2 years \$ 000	2 - 5 years \$ 000	Beyond 5 years \$ 000	Total \$ 000
Trade and other payables	14,432	-	-	-	14,432
<b>At 31 December 2025</b>	<b>14,432</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>14,432</b>
Trade and other payables	9,033	-	-	-	9,033
<b>At 31 December 2024</b>	<b>9,033</b>	<b>-</b>	<b>-</b>	<b>-</b>	<b>9,033</b>

**22 Acquisition of assets and liabilities of Yahsat****Material accounting policy information**

Acquisitions are accounted for using the acquisition method when the acquired set of activities and assets meets the definition of a business. In determining whether a particular set of activities and assets is a business, the Company assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive process and whether the acquired set has the ability to produce outputs.

On acquisition of a business, the Company undertakes a purchase price allocation, identifying and valuing assets and liabilities of the acquired business. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value. Goodwill is not recognised in the separate financial statements of the Company.

On 1 October 2024, the Company and Yahsat, a global satellite operator, merged to create Space 42, a UAE-based AI-powered SpaceTech company with a global reach, integrating satellite communications, geospatial analytics, and artificial intelligence capabilities.

On the date of the merger, Yahsat was dissolved and its shares de-listed from Abu Dhabi Securities Exchange (ADX). All assets and liabilities of Yahsat were transferred to the Company in exchange for newly issued shares of the Company, which were allocated to former Yahsat shareholders at a ratio of 0.897821 new shares in the Company for every one Yahsat share. Following the merger, the legal name of the Company was changed from Bayanat AI PLC to Space42 PLC.

The Company issued 2,190,476,979 ordinary shares as consideration for the acquisition of assets and liabilities of Yahsat. The fair value of the shares is calculated with reference to the quoted price of the shares of the Company at the date of acquisition, which was AED 2.38 per share (\$0.65 per share). The fair value of the consideration given was therefore \$1,419,560 thousand (AED 5,213,335 thousand) against which the following assets and liabilities were acquired at the acquisition date:

	Notes	\$ 000
<b>Assets</b>		
Property, plant and equipment (net)	11	408,093
Intangible assets (net)	12	900
Investments in subsidiaries (includes contributions to subsidiaries of \$716,816 thousand)		1,377,491
Trade and other receivables		24,965
Inventories		25
Cash and short-term deposits		28,880
		<b>1,840,354</b>
<b>Liabilities</b>		
Trade and other payables		16,045
Deferred revenue		403,541
Income tax liabilities		1,208
		<b>420,794</b>
<b>Purchase consideration</b>		<b>1,419,560</b>
